Family Therapy Beyond Postmodernism

Carmel Flaskas, 2003-09-02 Postmodernist ideas are widely used in family therapy. However, it is argued that these ideas have their limits in meeting the richness and complexity of human experience and therapy practice. *Family Therapy Beyond Postmodernism* examines postmodernism and its expressions in family therapy, raising questions about reality and realness, the subjective process of truth, the experience of self, and the difficulties in any sole reliance on narrative and constructionist ideas. This book advocates the value of selected psychoanalytic ideas for family therapy practice, in particular attachment and the unconscious transference, projective identification, and understandings of time. Psychoanalytic ideas about thinking and containment in the therapeutic relationship. *Family Therapy Beyond Postmodernism* offers a sustained critical discussion of the possibilities and limits of contemporary family therapy knowledge and develops a place for psychoanalytic ideas in systemic thinking and practice. It will be of great interest to family therapists, psychotherapists, and other mental health professionals. *Moving Beyond Individualism in Pastoral Care and Counseling* Barbara J

McClure, 2011-10-27 Despite astute critiques and available resources for alternative modes of thinking and practicing, individualism continues to be a dominating and constraining ideology in the field of pastoral psychotherapy and counseling. Philip Rieff was one of the first to highlight the negative implications of individualism in psychotherapeutic theories and practices. As heirs and often enthusiasts of the Freudian tradition, of which Rieff and others are critical, pastoral theologians have felt the sting of his charge, and yet the empirical research that McClure presents shows that pastoral counseling practitioners resist change. Their attempts to overcome an individualistic perspective have been limited and ineffective because individualism is embedded in the field's dominant theological and theoretical resources, practices, and organizational arrangements. Only a radical reappraisal of these will make possible pastoral counseling practices in a post-individualistic mode. McClure proposes several critical transformations: broadening and deepening the operative theologies used to guide the healing practice; expanding the role of the pastoral counselor; reimagining the operative anthropology; reclaiming sin and judgment; nuancing the particular against the individual; rethinking the ideal outcome of the practices; and reimagining the organizational structures that support the practices. Only this level of revisioning will enable this ministry of the church to move beyond its individualistic limitations and offer healing in more complex, effective, and socially adequate ways. *Beyond the Chaos: Your Essential Guide to Navigating Toxic Family Dynamics* Lela Montes, This comprehensive guide empowers readers to break free from the destructive cycle of toxic family relationships.
