Of The Original 1919 Edition *Familiar Talks on the History of Music* Arnold Johann Gantvoort, 2015-06-02 Excerpt from
Familiar Talks on the History of Music In these days of extensive general education some knowledge of important events in
the history of the development of musical art and some acquaintance with the lives of our greatest musical personages have
become almost indispensable The desire for a concise work which would contain considerable information on this subject
presented in a manner and in language easily understood has been expressed to me by many hundreds of music students
musical amateurs and members of musical clubs In response to this demand the present volume which is the outgrowth of
more than twenty years of lecture work was written The notes containing the data for this lecture work were made during a
long period of musical study and musical activity and their import has so completely become a part of my composite
knowledge on the subject that I find myself unable to give credit to any individual historical writer whose works may have
been consulted Sincere thanks are therefore hereby extended to all who have written on this subject from whom information
may have been gathered If a perusal of this volume shall succeed in creating in the minds of some of its readers a desire for
further information about the history of that far reaching art which accompanies us from the cradle to the grave I shall not
deem my labors to have been in vain About the Publisher Forgotten Books publishes hundreds of thousands of rare and
classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten
