*Families and Frontiers* Kathryn Edwards, 2021-10-01 The frontier of the Early Modern Burgundies In this book Edwards applies in reverse the American frontier concept in order to understand the local changes in family and community in a Burgundy torn in two after the death of Charles the Bold in 1477 During the late fifteenth and early sixteenth centuries residents of the eastern duchy and the western county of Burgundy were in a place and time of transition and transformation a veritable frontier While France and the Holy Roman Empire vied for political control of the region residents struggled to define their social cultural political and economic relationships to each other In the region of the Saône River valley detailed case studies and family reconstruction of specific elites from the cities of Dijon Dole and Besançon are discussed The river ironically acted as a roadway not a barrier and facilitated the fluidity of the residents relationships Thus the Burgundian frontier was marked by a tacit acceptance of permeable boundaries and the ensuing choices interchanges negotiations and flexibility inherent to the region Edwards successfully argues that a frontier develops when a previously united region is divided and offers a provocative alternative interpretation to contrast with the national historiography most frequently used by scholars This book enhances our understanding of how pre modern societies created regional identities *Families and Frontiers* Kathryn A. the intersections of colonial urban western and global history The twelve essays in this collection paint compelling portraits of frontier cities and their inhabitants the French traders who bypassed imperial regulations by throwing casks of brandy over the wall to Indian customers in eighteenth century Montreal Isaac Friedlander San Francisco s Grain King and Adrien de Pauger who designed the Vieux Carr in New Orleans Exploring the economic and political networks imperial ambitions and personal intimacies of frontier city development this collection demonstrates that these cities followed no mythic line of settlement nor did they move lockstep through a certain pace or pattern of evolution An introduction puts the collection in historical context and the epilogue ponders the future of frontier cities in the midst of contemporary globalization With innovative concepts and a rich selection of maps and images *Frontier Cities* imparts a crucial untold chapter in the construction of urban history and place

about the mountain man Gish shows the writer embracing the gloriously masculine and atavistic role of a lone rider even as he scorned the worship of the primitive Fergusson struck up a friendship with H L Mencken and Theodore Dreiser who influenced his literary style and played a part in the development of Taos and Santa Fe as meccas for artists and writers Based on extensive research including Fergusson s diaries and correspondence *Frontier s End* goes a long way toward reconciling the regional with the mainstream in American literature in the person of a serious novelist whose importance is finally being recognized      *Library of Congress Subject Headings* Library of Congress,1991
