**The Stem Family in Eurasian Perspective** Antoinette Fauve-Chamoux, Emiko Ochiai, 2009 Is the Asian stem family different from its European counterpart This question is a central issue in this collection

of essays assembled by two historians of the family in Eurasian perspective The stem family is characterized by the residential rule that only one married child remains with the parents This rule has a direct effect upon household structure In short the stem family is a domestic unit of production and reproduction that persists over generations handing down the patrimony through non egalitarian inheritance In spite of its ambiguous status in current family typology as something lurking in the valley between the nuclear family and the joint family the stem family was an important family form in pre industrial Western Europe and has been a focus of the European family history since Fr d ric Le Play and more recently Peter Laslett However the encounter with Asian family history has revealed that many areas in Asia also had and still have a considerable proportion of households with a stem family structure The stem family debate has entered a new stage In this book some studies that benefited from recently created large databases present micro level analyses of dynamic aspects of family systems while others discuss more broadly the rise and fall of family systems past and present A main concern of this book is whether the family type in a society is ethno culturally determined and resistant to changes or created by socio economic conditions Such a comparison that includes Asian countries activates a new phase of the discussion on the stem family and family systems in a global perspective     *Routledge Handbook of Contemporary Vietnam* Jonathan D.

**The Sacred Willow** Mai Elliott, 1999-04-08 A finalist for the Pulitzer Prize Duong Van Mai Elliott's *The Sacred Willow* illuminates recent Vietnamese history by weaving together the stories of the lives of four generations of her family Beginning with her great grandfather who rose from rural poverty to become an influential landowner and continuing to the present Mai Elliott traces her family's journey through an era of tumultuous change She tells us of childhood hours in her grandmother's silk shop and of hiding while French troops torched her village watching while blossoms torn by fire from the trees flutter like hundreds of butterflies overhead She makes clear the agonizing choices that split Vietnamese families her eldest sister left her staunchly anti communist home to join the Viet Minh and spent months sleeping in jungle camps with her infant son fearing air raids by day and tigers by night And she follows several family members through the last desperate hours of the fall of Saigon including one nephew who tried to escape by grabbing the skid of a departing American helicopter Based on family papers dozens of interviews and a wealth of other research this is not only a memorable family saga but a record of how the Vietnamese themselves have experienced their times
