Buckingham,E.P. Donatelle,Thomas A. Jr. Johnson,Joseph E. Scherger,Robert B. Taylor,2013-11-21 New material in a new format is contained in this third edition of Family Medicine The comprehensive text nevertheless remains true to the goal of previous editions in offering a scientific approach to health and illness within the context of the family Using up to date clinical material the book demonstrates how the family physician may provide comprehensive health care to persons of all ages The first part of Family Medicine discusses such topics as the conceptual basis of family as discipline and specialty problem differentiation family centered health care longitudinal care clinical reasoning and resource management The second part explores both problems related to organs and systems and problems related to the person family and community including pregnancy care of infants children adolescents and the elderly behavioral and psychiatric problems emergency and critical care sports medicine alcoholism and substance misuse environmental health and neoplastic and infectious diseases Family Medicine with its greatly expanded in depth coverage of the most commonly encountered clinical core problems and procedures in family medicine continues to be a textbook written and edited by family physicians for family physicians

Preventing Disease Richard B. Goldbloom,Robert S. Lawrence,2012-12-06 Preventing Disease the offspring of an extraordinary collaboration between the U S and Canadian Preventive Services Task Forces presents a meticulous and objective review of the published evidence on preventive measures Examining such diverse and relevant topics as screening for endometrial cancer exercise counselling for healthy adults and the evidence for a causal relation between dietary lipids and coronary heart disease this volume reflects the editors shared conviction that recommendations for preventive action should rarely exceed what is well justified by the evidence In the current period characterized as the Second Public Health Revolution the authors hard nosed approach leads them to ask the tough questions Are preventive measures cost saving Does preventive screening actually lead to treatment in clinical practice Does the treatment do more good than harm To what extent does our desire to eliminate causes of serious disability ill health and premature death cloud our objectivity All concerned about preventive medicine community health and primary care will find valuable stimulation for thought and

action in this book the contributions have gone beyond the rhetoric
