*Family Under Siege*, 2000      No Direction Home Natasha Zaretsky, 2010-01-27 Between 1968 and 1980 fears about family deterioration and national decline were ubiquitous in American political culture In *No Direction Home* Natasha Zaretsky shows that these perceptions of decline profoundly shaped one another Throughout the 1970s anxieties about the future of the nuclear family collided with anxieties about the direction of the United States in the wake of military defeat in Vietnam and in the midst of economic recession Zaretsky explains By exploring such themes as the controversy surrounding prisoners of war in Southeast Asia the OPEC oil embargo of 1973 74 and debates about cultural narcissism Zaretsky reveals that the 1970s marked a significant turning point in the history of American nationalism After Vietnam a wounded national identity rooted in a collective sense of injury and fueled by images of family peril exploded to the surface and helped set the stage for the Reagan Revolution With an innovative analysis that integrates cultural intellectual and political history *No Direction Home* explores the fears that not only shaped an earlier era but also have reverberated into our own time

*Gender, Heteronormativity, and the American Presidency* Aidan Smith, 2017-10-03 *Gender Heteronormativity and the American Presidency* places notions of gender at the center of its analysis of presidential campaign communications Over the decades an investment in gendered representations of would-be leaders has changed little in spite of the second and third wave feminist movements Modern candidates have worked vigorously to demonstrate compensatory heterosexuality an unquestionable normative identity that seeks to overcome challenges to their masculinity or femininity The book draws from a wide range of archived media material including televised films and advertisements public debates and speeches and candidate autobiographies From the domestic ideals promoted by Eisenhower in the 1950s right through to the explicit and divisive rhetoric associated with the Clinton Trump race in 2016 intersectional content and discourse analysis reveals how each presidential candidate used his or her campaign to position themselves as a defender of traditional gender roles and furthermore how this investment in appropriate gender behaviour was made manifest in both international and domestic policy choices This book represents a significant and timely contribution to the study of political communication While communication during presidential elections is a well established research field Aidan Smith's book is the first to apply a gendered lens over such an extended historical period and across the political spectrum
