Family studies scholars describe the use in therapy of techniques for the assessment of family characteristics and problems Each author was given an outline to follow in order that a wide range of theoretical or therapeutic approaches would be coherently presented Evidence for the validity of each assessment technique suggestions for its practical administration and interpretation illustrations by case example of its function and utility and the actual questionnaire itself or instructions on how to get it are provided The use of third party observers and techniques for getting information from the family itself about marital relations or the full family structure are described      **Assessing Children in the Urban Community** Barbara L Mercer,Tricia Fong,Erin Rosenblatt,2015-12-22 This book illuminates the process of child psychological assessment in community psychology through discussion theory and case studies of collaborative systemic treatment of children and their parents Assessing Children in the Urban Community presents a semi structured form of collaborative psychological assessment designed to help clients gain new insights and make changes in their lives Traditional psychological assessment focuses on diagnosis and treatment but has been slow to include contextual elements particularly social and cultural contexts into the assessment process and psychological report Clients receiving services in a community psychology clinic pay for their treatment through state welfare coverage They cannot choose their providers they cannot always determine the length and course of their mental health care they often do not have access to transportation to begin services to continue them or to take advantage of follow up recommendations The Therapeutic Assessment model is particularly adaptable to community psychology because it allows maximum interaction in the assessment process and promotes participation and collaboration in an often disempowering system This book will be relevant to clinical psychologists community psychologists social workers family therapists graduate students in psychology social work marriage and family therapists and counseling programs
