Music Stones: The Rediscovery of Ringing Rock Mike Adcock,2025-09-18 Stone instruments known as lithophones are believed to date back to prehistoric times This book explores their more recent musical uses from 18th century sets in

England to Vietnam's ancient slabs, sound sculptures and experimental compositions revealing the enduring resonance of stone in music and art [Singing for Freedom](#) Scott Gac, 2008-10-01

In the two decades prior to the Civil War the Hutchinson Family Singers of New Hampshire became America's most popular musical act. Out of a Baptist revival upbringing John Asa Judson and Abby Hutchinson transformed themselves in the 1840s into national icons taking up the reform issues of their age and singing out especially for temperance and antislavery reform. This engaging book is the first to tell the full story of the Hutchinsons how they contributed to the transformation of American culture and how they originated the marketable American protest song.

Through concerts, writings, sheet music publications and books of lyrics the Hutchinson Family Singers established a new space for civic action a place at the intersection of culture, reform, religion and politics. The book documents the Hutchinsons' impact on abolition and other reform projects and offers an original conception of the rising importance of popular culture in antebellum America.

[Music, Culture and Identity in the Muslim World](#) Kamal Salhi, 2013-12-17

In contrast to many books on Islam that focus on political rhetoric and activism this book explores Islam's extraordinarily rich cultural and artistic diversity showing how sound music and bodily performance offer a window onto the subtleties and humanity of Islamic religious experience. Through a wide range of case studies from West Asia, South Asia and North Africa and their diasporas including studies of Sufi chanting in Egypt and Morocco, dance in Afghanistan and Muslim punk on line the book demonstrates how Islam should not be conceived of as being monolithic or monocultural how there is a large disagreement within Islam as to how music and performance should be approached such disagreements being closely related to debates about orthodoxy, secularism and moderate and fundamental Islam and how important cultural activities have been and continue to be for the formation of Muslim identity.

War, Exile and the Music of Afghanistan John Baily, 2016-09-01

In the 1970s John Baily conducted extensive ethnomusicological research in Afghanistan principally in the city of Herat but also in Kabul. Then with Taraki's coup in 1978 came conflict war and the dispersal of many musicians to locations far and wide. This new publication is the culmination of Baily's further research on Afghan music over the 35 years that followed. This took him to Afghanistan, Pakistan, Iran, the USA, Australia and parts of Europe, London, Hamburg and Dublin. Arranged chronologically the narrative traces the sequence of political events from 1978 through the Soviet invasion to the coming of the Taliban and finally the aftermath of the US-led invasion in 2001. He examines the effects of the ever-changing situation on the lives and works of Afghan musicians following individual musicians in fascinating detail. At the heart of his analysis are privileged vignettes of ten musical personalities some of friends and some newly discovered. The result is a remarkable personal memoir by an eminent ethnomusicologist known for his deep commitment to Afghanistan, Afghan musicians and Afghan musical culture. John Baily is also an ethnographic filmmaker. Four of his films relating to his research are included on the downloadable resources that accompanies the text.
