Re-visioning Historical Fiction for Young Readers Kim

Wilson,2011-06-15 This study is concerned with how readers are positioned to interpret the past in historical fiction for children and young adults Looking at literature published within the last thirty to forty years Wilson identifies and explores a prevalent trend for re visioning and rewriting the past according to modern social and political ideological assumptions Fiction within this genre while concerned with the past at the level of content is additionally concerned with present views of that historical past because of the future to which it is moving Specific areas of discussion include the identification of a new sub genre Living history fiction stories of Joan of Arc historical fiction featuring agentic females the very popular Scholastic Press historical journal series fictions of war and historical fiction featuring multicultural discourses Wilson observes specific traits in historical fiction written for children most notably how the notion of positive progress into the future is nuanced differently in this literature in which the concept of progress from the past is inextricably linked to the protagonist s potential for agency and the realization of subjectivity The genre consistently manifests a concern with identity construction that in turn informs and influences how a metanarrative of positive progress is played out This book engages in a discussion of the functionality of the past within the genre and offers an interpretative frame for the sifting out of the present from the past in historical fiction for young readers

Literacy as a Moral Imperative Rebecca Powell,1999-09-08

In this important new book on literacy and teaching practices education scholar and former schoolteacher Rebecca Powell argues that the decisions we make about literacy in a pluralistic society are fundamentally moral ones either supporting inequitable power relationships or seeking to transform them Powell explores the underlying ideological assumptions of schooled literacy and examines the ways teaching practices create tensions in the lives of students tensions that often result in alienation and educational failure particularly among those whose cultural knowledge and language tends to be marginalized in our nation s schools While primarily ground in critical theory this volume also draws from multicultural and holistic perspectives in the teaching of written and oral language and addresses the link between whole language and critical pedagogy Thus the text is both theoretical and practical Powell effectively argues that literacy instruction should encourage social responsibility and civic action should enable students and teachers to understand the transformative potential of language and should nurture a culture of compassion and care

Multicultural Literature for Children and Young Adults Mingshui Cai,2002-10-30

There is much discussion of multiculturalism in education This is especially true of multicultural literature for children and young adults The rise of multicultural literature is a political rather than a literary movement it is a movement to claim space in literature and in education for historically marginalized social groups rather than one to renovate the craft of literature itself

Multicultural literature has been closely bound with the cause of multiculturalism in general and thus has been confronted with resistance from conservatives This book discusses many of the controversial issues surrounding multicultural literature for children and young adults The volume begins with a look at some of the foundational and theoretical issues related to multicultural literature The second part of the book addresses issues related to the creation and critique of multicultural literature including the authorship of such works and the role of the reader in determining whether or not a work is multicultural The third looks at the place of multicultural literature in the education of children and young adults Throughout its discussion the book makes extensive references to a large body of multicultural fiction and provides a thorough review of research on this important topic
