Families in the Expansion of Europe,1500-1800 Maria Beatriz Nizza da Silva,2018-10-26 Published in 1998 this volume presents legal religious and demographic aspects of the transfer of European family organisations to new environments in the overseas colonies and illustrates the impacts of contact with other ethnic groups In Africa the focus is on the Cape the principal area of European settlement in the 17th 18th centuries in the Americas the analysis includes indigenous and black families Inheritance dowry marriage divorce illegitimacy are topics covered but the emphasis is above all on women s roles and voices **Caetana Says No** Sandra Lauderdale Graham,2002-09-05 This 2002 book presents the true and dramatic accounts of two nineteenth century Brazilian women one young and born a slave the other old and from an illustrious planter family and how each sought to retain control of their lives the slave woman struggling to avoid an unwanted husband the woman of privilege assuming a patriarch s role to endow a family of her former slaves with the means for a free life But these women s stories cannot be told without also recalling how their decisions drew them ever more firmly into the orbits of the worldly and influential men who exercised power in their lives These are stories with a twist in this society of radically skewed power Lauderdale Graham reveals that more choices existed for all sides than we first imagine Through these small histories she casts new light on larger meanings of slave and free female and male *Slaves, Peasants, and Rebels* Stuart B. Schwartz,1996 Once preoccupied with Brazilian slavery as an economic system historians shifted their attention to examine the nature of life and community among enslaved people Stuart B Schwartz looks at this change while explaining why historians must continue to place their ethnographic approach in the context of enslavement as an oppressive social and economic system Schwartz demonstrates the complexity of the system by reconsidering work resistance kinship and relations between enslaved persons and peasants As he shows enslaved people played a role in shaping not only their lives but Brazil s institutionalized system of slavery by using their own actions and attitudes to place limits on slaveholders A bold analysis of changing ideas in the field *Slaves Peasants and Rebels* provides insights on how the shifting power relationship between enslaved people and slaveholders reshaped the contours of Brazilian society Colonial and Postcolonial Latin America and the Caribbean Emily Sebastian,2016-12-15 **The People of the River** Oscar de la Torre,2018-08-17 In this history of the black peasants of Amazonia Oscar de la Torre focuses on the experience of African

descended people navigating the transition from slavery to freedom He draws on social and environmental history to connect them intimately to the natural landscape and to Indigenous peoples Relying on this world as a repository for traditions discourses and strategies that they retrieved especially in moments of conflict Afro Brazilians fought for autonomous communities and developed a vibrant ethnic identity that supported their struggles over labor land and citizenship Prior to abolition enslaved and escaped blacks found in the tropical forest a source for tools weapons and trade but it was also a cultural storehouse within which they shaped their stories and records of confrontations with slaveowners and state authorities After abolition the black peasants knowledge of local environments continued to be key to their aspirations allowing them to maintain relationships with powerful patrons and to participate in the protest cycle that led Get lio Vargas to the presidency of Brazil in 1930 In commonly referring to themselves by such names as sons of the river black Amazonians melded their agro ecological traditions with their emergent identity as political stakeholders

Textiles: Production, Trade and Demand Maureen Fennell Mazzaoui, 2016-12-05 This volume examines the role of textiles within the expanding global economy in the Age of European Exploration Major themes include the opening of new markets and responses to competition in the cloth trade evolving techniques and modes of production and changes in the patterns of consumption of local and imported cloth in a comparative cross cultural context
