about secularisation and religious change in twentieth century Britain has paid little attention to the experience of those who swam against the cultural tide and continued to attend church This study based on extensive original archive and oral history research redresses this imbalance with an exploration of church based Christianity in post war Birmingham examining how churchgoers interpreted and responded to the changes that they saw in family congregation neighbourhood and wider society One important theme is the significance of age and generational identity to patterns of religiosity amidst profound change in attitudes to youth age and parenting and growing evidence of a widening generation gap in Christian belief and practice In addition to offering a new and distinctive perspective on the changing religious identity of late twentieth century English society the book also provides a rare case study in the significance of age and generation in the social and cultural history of modern Britain Ian Jones is the Director of the Saltley Trust an educational charity Birmingham

Materials because they have woven by far the largest proportion of the cases and materials into the text Helen Reece Times Higher Education May 2007 Reviews of first edition A stimulating work which attempts to situate family law in its social historical and political context Its appeal should not be confined to family law students as its commitment to a critical and analytical approach offers insights and ideas with broader significance Mary Childs Child and Family Law Quarterly September 2002 The arguments are provocative the analysis is stimulating and the materials amassed strongly support the authors aim to question the axiomatic status of what is traditionally designated as the family Fiona E Raitt Infant and Child Development September 2002 It is not often that one can say of a textbook in Law that it makes interesting reading with quite the enthusiasm that can be expressed for this text This new publication offers something that few textbooks seem to offer a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum Penny Booth The Law Teacher September 2002 All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references As a teaching manual it is excellent a coherent feminist perspective across the entire range of family law Marty Slaughter Feminist Legal Studies July 2003
