Children of the Land Glen H. Elder Jr.,Rand D. Conger,2014-10-01 A century ago most Americans had ties to the land Now only one in fifty is engaged in farming and little more than a fourth live in rural communities Though not new this exodus from the land represents one of the great social movements of our age and is also symptomatic of an unparalleled transformation of our society In *Children of the Land* the authors ask whether traditional observations about farm families strong intergenerational ties productive roles for youth in work and social leadership dedicated parents and a network of positive engagement in church school and community life apply to three hundred Iowa children who have grown up with some tie to the land The answer as this study shows is a resounding yes In spite of the hardships they faced during the agricultural crisis of the 1980s these children whose lives we follow from the seventh grade to after high school graduation proved to be remarkably successful both academically and socially A moving testament to the distinctly positive lifestyle of Iowa families with connections to the land this uplifting book also suggests important routes to success for youths in other high risk settings

Partnerships Against Violence ,1995 **Legal Protection of Children Against Sexual Exploitation in Taiwan** Amy H.L. Shee,2019-05-23 First published in 1998 this volume responds to child prostitution being recognised as a major social problem in modern capitalist Taiwan It is defined both legally and socially as a problem of sexual transactions involving children and juveniles thus the issue of child maltreatment is submerged under other concerns However the main concern of this book is the protection of children from maltreatment so related socio legal measures will be examined by this parameter During the social campaigns against child prostitution structural problems such as police corruption male sexual perversion socio economic inequality and the maladjustment of aboriginal people in the modern Taiwanese society are subjugated to increasing criticism Nevertheless efforts to encounter any of them have had very limited

accomplishment This book intends to show that the functions of law in the prevention and treatment of the social problem of child prostitution cannot work as intended if those structural problems are not properly tackled Suggestions are also made to address the need to reconceptualise the problem in the analytical framework of child maltreatment and to recommend the direction for reformation of policy and practice **Wind Over Water** David W. Haines, Keiko Yamanaka, Shinji
