**S. Hindle**

## **Famine Disease And The Social Order In Early Modern Society:**

**Famine, Disease and the Social Order in Early Modern Society** John Walter, Roger Schofield, Andrew B. Appleby, 1991-04-26 An examination of the complex interrelationships among past demographic social and economic structures demonstrates how the impact of hunger and disease can enhance the exploration of early modern society

*Famine, disease and the social order in early modern society* John Walter, 1989      **Famine, Disease and the Social Order in Early Modern Society** Andrew B. Appleby, 1989      The State and Social Change in Early Modern England, 1550-1640 S. Hindle, 2000-03-02 This is a study of the social and cultural implications of the growth of governance in England in the century after 1550 It is principally concerned with the role played by the middling sort in social and political regulation especially through the use of the law It discusses the evolution of public policy in the context of contemporary understandings of economic change and analyses litigation arbitration social welfare criminal justice moral regulation and parochial analyses administration as manifestations of the increasing role of the state in early modern England      Famine in European History Guido Alfani, Cormac Ó Gráda, 2017-08-18 This is the first systematic study of famine in all parts of Europe from the Middle Ages until the present In case studies ranging from Scandinavia and Italy to Ireland and Russia leading scholars compare the characteristics consequences and causes of famine The famines they describe differ greatly in size duration and context in many cases the damage wrought by poor harvests was confounded by war The roles of human action malfunctioning markets and poor relief are a recurring theme The chapters also take full account of demographic institutional economic social and cultural aspects providing a wealth of new information which is organized and analyzed within a comparative framework Famine in European History represents a significant new contribution to demographic history and will be of interest to all those who want to discover more about famines truly horrific events which for centuries have been a recurring curse for the Europeans      *Revolution and Rebellion in the Early Modern World* Jack A. Goldstone, 1991-04-02 What can the great crises of the past teach us about contemporary revolutions Arguing from an exciting and original perspective Goldstone suggests that great revolutions were the product of ecological crises that occurred when inflexible political economic and social institutions were overwhelmed by the cumulative pressure of population growth on limited available resources Moreover he contends that the causes of the great revolutions of Europe the English and French revolutions were similar to those of the great rebellions of Asia which shattered dynasties in Ottoman Turkey China and Japan The author observes that revolutions and rebellions have more often produced a crushing state orthodoxy than liberal institutions leading to the conclusion that perhaps it is vain to expect revolution to bring democracy and economic progress Instead contends Goldstone the path to these goals must begin with respect for individual liberty rather than authoritarian movements of national liberation Arguing that the threat of revolution is still with us Goldstone urges us to heed the lessons of the past He sees in the United States a repetition of the behavior patterns that have led to

internal decay and international decline in the past a situation calling for new leadership and careful attention to the balance between our consumption and our resources Meticulously researched forcefully argued and strikingly original *Revolutions and Rebellions in the Early Modern World* is a tour de force by a brilliant young scholar It is a book that will surely engender much discussion and debate

*The Middling Sort and the Politics of Social Reformation* Richard Dean Smith, 2004 The interrelated demographic economic religious and cultural transformations that England experienced in the late sixteenth and early seventeenth centuries were most pronounced in larger towns in the south and east such as Colchester in Essex The effects produced by these changes led to an effort at social and sexual regulation by the town's more prosperous residents in order to control and modify the negative impact on the local population especially the poor This book provides an in depth portrait of an urban setting discussing both wrongdoers themselves and the motivations of the craftsmen and tradesmen the middling sorts who enforced local standards of conduct

Literature and Moral Economy in the Early Modern Atlantic Hillary Eklund, 2016-03-09 Grounded in the literary history of early modern England this study explores the intersection of cultural attitudes and material practices that shape the acquisition circulation and consumption of resources at the turn of the seventeenth century Considering a formally diverse and ideologically rich array of texts from the period including drama poetry and prose as well as travel narrative and early modern political and literary theory this book shows how ideas about what is considered enough adapt to changing material conditions and how cultural forces shape those adaptations *Literature and Moral Economy in the Early Modern Atlantic* traces how early modern English authors improvised new models of sufficiency that pushed back the threshold of excess to the frontier of the known world itself The book argues that standards of economic sufficiency as expressed through literature moved from subsistence toward the increasing pursuit of plenty through plunder trade and plantation Author Hillary Eklund describes what it means to have enough in the moral economies of eating travel trade land use and public policy

**Famine in Scotland - the 'Ill Years' of the 1690s** Karen J. Cullen, 2010-02-15 This book examines the climatic and economic origins of the last national famine to occur in Scotland the nature and extent of the crisis which ensued and what the impact of the famine was upon the population in demographic economic and social terms Current published knowledge about the causes extent and impact of the famine in Scotland is limited and many conclusions have been speculative in the absence of extensive research Despite the critical importance of this crisis one of the four disasters of the 1690s which are widely acknowledged to have contributed to the economic arguments in favour of the Union of the Parliaments in 1707 the topic has been largely neglected and even underplayed by historians This is the first full study of the famine providing a unique scholarly examination of the causes course characteristics and consequences of the crisis A comprehensive study of agricultural climatic economic social and demographic issues the book seeks to establish answers to the fundamental question concerning the event How serious was it Using detailed statistical and qualitative analysis it discusses the regional factors that defined the famine the impact on the

population and the interconnected causes of this traumatic event      The Social History of English Seamen, 1485-1649 Cheryl A. Fury, 2012 Investigates the lives of common sailors engaged in commerce exploration privateering and piracy and naval actions during Tudor and Stuart periods      *A Companion to Stuart Britain* Barry Coward, 2008-04-15 Covering the period from the accession of James I to the death of Queen Anne this companion provides a magisterial overview of the long seventeenth century in British history Comprises original contributions by leading scholars of the period Gives a magisterial overview of the long seventeenth century Provides a critical reference to historical debates about Stuart Britain Offers new insights into the major political religious and economic changes that occurred during this period Includes bibliographical guidance for students and scholars      **Old Age and the English Poor Law, 1500-1700** Lynn A. Botelho, 2004 Based on documents from two Suffolk villages this study examines the operation of the poor law and the individual effort the elderly poor needed to make to survive This study is a test case of the old poor law In its exploration of the virtually unknown world of the aged poor in sixteenth and seventeenth century England it asks how the elderly poor managed to survive in a pre industrial economy and answers through focusing on the many factors that make up the experience of old age status health wealth and local culture in two Suffolk villages Botelho demonstrates that the poor law did not nor did it intend to provide complete support and she documents the individual efforts of the poor as they made their own old age arrangements drawing as heavily upon their own initiatives as upon charity and legislated relief LYNN BOTELHO is Associate Professor of History Indiana University of Pennsylvania      *Disabled Veterans in History* David A. Gerber, 2012-06-06 *Disabled Veterans in History* explores the long neglected history of those who have sustained lasting injuries or chronic illnesses while serving in uniform The contributors to this volume cover an impressive range of countries in Europe and North America as well as a wide sweep of chronology from the Ancient World to the present The essays address the emergence of veteran as a political category with unique privileges and entitlements and of disabled veterans as a special project and indeed one of the original projects of the modern welfare state The introductory essay *Finding Disabled Veterans in History* offers perhaps the first attempt at synthesizing knowledge about disabled veterans in Western societies The other essays examine the representation of disabled veterans from Sophocles Philoctetes to American feature films the relations of disabled veterans to the state and society in such public policy issues as pensions medical care physical rehabilitation and job retraining and the disabled veteran's agency and experience in reentering the peacetime world Other topics include the place of disabled veterans in societies defeated in war the fate of disabled veterans in societies experiencing frequent changes of political regimes the emergence of pensions and vocational rehabilitation for disabled veterans and the abiding problem of alcohol abuse among disabled veterans The contributors come from a variety of disciplines including history physical rehabilitation Slavic studies sociology communication and media and museum studies The book will be of interest especially to researchers in the fields of war and society the welfare state and disability studies as well as those in the medical rehabilitation and counseling fields

David A Gerber is Professor of History State University at Buffalo He is the author or editor of five previous books **Eating Agendas** Donna Maurer, Jeffery Sobal, The international group of sociological and nutritional scientists in this volume represent the research that has been conducted on the social problematics of food and nutrition in such areas as food safety biotechnology food stamp programs obesity anorexia nervosa and vegetarianism The broad range of topics addressed and the case studies examined make this book suitable as a course related text both in foodways and cultural aspects of nutrition and as a new departure in social problems courses **A Cultural History of Famine** Ayesha Mukherjee, 2019-01-15 The term food security does not immediately signal research done in humanities disciplines It refers to a complex contested issue whose currency and significance are hardly debatable given present concerns about environmental change resource management and sustainability The subject is thus largely studied within science and social science disciplines in current or very recent historical contexts This book brings together perspectives on food security and related environmental concerns from experts in the disciplines of literary studies history science and social sciences It allows readers to compare past and contemporary attitudes towards the issues in India and Britain the economic social and environmental histories of these two nations have been closely connected ever since British travellers began to visit India in the latter half of the sixteenth century The chapters in this book discuss themes such as climate harvest failure trade technological improvements transport networks charity measures and popular protest which affected food security in both countries from the seventeenth century onwards The authors cover a range of disciplinary and interdisciplinary approaches and their chapters allow readers to understand and compare different methodologies as well as different contexts of time and place relevant to the topic This book will be of great interest to students and researchers of economic and social history environmental history literary studies and South Asian studies *The Experience of Authority in Early Modern England* Adam Fox, Paul Griffiths, Steve Hindle, 1996-08-16 This collection is concerned with the articulation mediation and reception of authority the preoccupations and aspirations of both governors and governed in early modern England It explores the nature of authority and the cultural and social experiences of all social groups especially insubordinates These essays probe in depth the ways in which young people responded to adults women to men workers to masters and the common sort to their betters Early modern people were not passive receptacles of principles of authority as communicated in for example sermons statutes and legal process They actively contributed to the process of government thereby exposing its strengths weaknesses and ambiguities In discussing these issues the contributors provide fresh points of entry to a period of significant cultural and socio economic change The Making of the British Isles Steven G. Ellis, Christopher Maginn, 2014-07-15 The history of the British Isles is the story of four peoples linked together by a process of state building that was as much about far sighted planning and vision as coincidence accident and failure It is a history of revolts and reversal familial bonds and enmity the study of which does much to explain the underlying tension between the nations of modern day Britain The Making of the British

Isles recounts the development of the nations of England Scotland Wales and Ireland from the time of the Anglo French dual monarchy under Henry VI through the Wars of the Roses the Reformation crisis the reigns of Henry VIII and Elizabeth I the Anglo Scottish dynastic union the British multiple monarchy and the Cromwellian Republic ending with the acts of British Union and the Restoration of the Monarchy

**Disasters and History** Bas van Bavel, Daniel R. Curtis, Jessica Dijkman, Matthew Hannaford, Maïka de Keyzer, Eline van Onacker, Tim Soens, 2020-10-22 Offers the first comprehensive overview of research into hazards and disasters from a historical perspective This title is also available as Open Access on Cambridge Core

**The Pursuit of Stability** Ian W. Archer, 2002 A holistic approach to interpreting early modern London society

**Divine Doctors and Dreadful Distempers** Christi Sumich, 2013-10-10 Divine Doctors and Dreadful Distempers examines the discourse of seventeenth century English physicians to demonstrate that physicians utilized cultural attitudes and beliefs to create medical theory They meshed moralism with medicine to self fashion an image of themselves as knowledgeable health experts whose education assured good judgment and sage advice and whose interest in the health of their patients surpassed the peddling of a single nostrum to everyone The combination of morality with medicine gave them the support of the influential godly in society because physicians theories about disease and its prevention supported contemporary concerns that sinfulness was rampant Particularly disturbing to the godly were sins deemed most threatening to the social order lasciviousness ungodliness and unruliness all of which were most clearly and threateningly manifested in the urban poor Physicians medical theories and suggestions for curbing some of the most feared and destructive diseases in the seventeenth century most notably plague and syphilis focused on reforming or incarcerating the sick and sinful poor Doing so helped propel physicians to an elevated position in the hierarchy of healers competing for patients in seventeenth century England

The Top Books of the Year Famine Disease And The Social Order In Early Modern Society The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have captivated audiences this year. Famine Disease And The Social Order In Early Modern Society : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Famine Disease And The Social Order In Early Modern Society : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
