Women and the Historical Enterprise in America: Gender, Race and the Politics of Memory Julie Des Jardins, 2004-07-21 In *Women and the Historical Enterprise in America* Julie Des Jardins explores American women s participation in the practice of history from the late nineteenth century through the end of World War II a period in which history became professionalized as an increasingly masculine field of scientific inquiry Des Jardins shows how women nevertheless transformed the profession during these years in their roles as writers preservationists educators archivists government workers and social activists Des Jardins explores the work of a wide variety of women historians both professional and amateur popular and scholarly conservative and radical white and nonwhite Although their ability to earn professional credentials and gain research access to official documents was limited by their gender and often by their race these historians addressed important new questions and represented social groups traditionally omitted from the historical record such as workers African Americans Native Americans and religious minorities Assessing the historical contributions of Mary Beard Zora Neale Hurston Angie Debo Mari Sandoz Lucy Salmon Mary McLeod Bethune Dorothy Porter Nellie Neilson and many others Des Jardins argues that women working within the broadest confines of the historical enterprise collectively brought the new perspectives of social and cultural history to the study of a multifaceted American past In the process they not only developed the field of women s history but also influenced the creation of our national memory in the twentieth century

What American Women Did, 1789-1920 Linda Miles Coppens, 2015-07-25 This reference book chronicles what American women did from the emergence of the republic through the end of World War I and the passage of the Nineteenth Amendment A broad spectrum of activities are depicted showing their many accomplishments and how their activities affected the world around them It was an era of great transition for all women A who s who of American women and some men those who showed great support or ironically

great opposition to women's reform are described one year at a time beginning with 1789 and ending with 1920. Each year's activities are organized into seven possible categories: domesticity, work, education, religion, the arts, the law, and politics, and joining forces. The book is thoroughly indexed. **Our Famous Women**, 1883. **The Art of the Woman**. Emily Fourmy Cutrer, 2016-03-15. The Art of the Woman explores the life of German-born Elisabet Ney, a flamboyant sculptor who transfixed the philosopher Arthur Schopenhauer and left the court of the half-mad Ludwig of Bavaria to put down new roots in Texas. Born in 1833, Ney gained notoriety in Europe by sculpting the busts of such figures as Ludwig II, Schopenhauer, Garibaldi, and Bismarck. In 1871, she abruptly emigrated to America and became something of a recluse until resuming her sculpting career two decades later. In Texas, she was known for stormy relationships with officials, patrons, and women's organizations. Her works included sculptures of Sam Houston and Stephen F. Austin and are exhibited in the state and US capitols as well as the Smithsonian. Emily Fourmy Cutrer's biography of Ney makes extensive use of primary sources and was the first to appraise both Ney's legend and individual works of art. Cutrer argues that Ney was an accomplished sculptor coming out of a neglected German neoclassical tradition and that whatever her failures and eccentricities, she was an important catalyst to cultural activity in Texas. **American Education**, 1981. *American Women's History*. Concise chapters cover a uniquely wide range of topics such as the roles of Indigenous women in North American cultures, the ways women participated in the American Revolution, the lives of women of color in the antebellum South and their experiences with slave resistance and rebellion, the radical transformation brought on by Black women during Reconstruction, the activism of women before and after suffrage was won, and more. Discusses how Indigenous women navigated cross-cultural contact and resisted assimilation efforts after the arrival of Europeans. Addresses the cultural shifts, demographic changes, and women's rights movements of the early twentieth century. Highlights women's participation in movements for civil rights, workplace justice, and equal educational opportunities.
