came to be often revealing that the pieces we now consider classic were never intended to be so In poignant exquisite prose Sachs shows how Mozart a former child prodigy under constant pressure to produce new music hastily penned Piano Concerto No 17 in G major one of his finest piano concertos for a teenage student and likewise demonstrates how Goethe s Faust Part One became a springboard for the musical imagination of the French composer Berlioz As Sachs explains these pieces are not presented as candidates for a new Top Ten They represent neither the most well known nor the most often performed works of each composer Instead they were chosen precisely because he had something profound to say about them about their composers about how each piece fits into its composer s life and about how each of these lives can be contextualized by time and place In fact Sachs encourages readers to form their own favorites and teaches them how to discern special characteristics that will enhance their own listening experiences With Ten Masterpieces of Music it becomes evident that Sachs has lived with these pieces for a veritable lifetime His often soaring descriptions of the works and the dramatic lives of the men who composed them bring a heightened dimension to the musical perceptions of all listeners communicating both the sheer improbability of a work becoming a classic and why certain pieces these ten among them survive the perilous test of time
