A Defence of Nihilism James Tartaglia,Tracy Llanera,2020-12-21 This book offers a philosophical defence of nihilism The authors argue that the concept of nihilism has been employed pejoratively by almost all philosophers and religious leaders to indicate a widespread cultural crisis of truth meaning or morals Many religious believers think atheism leads to moral chaos because it leads to nihilism and atheists typically insist that we can make life meaningful through our own actions thereby avoiding nihilism In this way both sides conflate the cosmic sense of meaning at stake with a social sense of meaning This book charts a third course between extremist and alarmist views of nihilism It casts doubt on the assumption that nihilism is something to fear or a problem which human culture should overcome by way of seeking discovering or making meaning In this way the authors believe that a revised understanding of nihilism can help remove a significant barrier of misunderstanding between religious believers and atheists A Defence of Nihilism will be of interest to scholars and students in philosophy religion and other disciplines who are interested in questions surrounding the meaning of life

imperial Japan the defeat of Nazi Germany and nuclear stalemate with America in the Cold War Based on collaborative research by Russian and British scholars in the hitherto secret archives of the Soviet government party and armed forces this book is a pioneering investigation of the economic dynamics and social and political significance of Soviet defence A 1960s Global Odyssey David W. Skillan, 2025-02-25 During the turbulent 1960s when much of the Western world was undergoing social upheaval and unrest and years before computers GPS smartphones and modern day guidebooks two young men set off from their native England to work their way around the world Their unique odyssey was crammed with adventure and incident and many of their experiences were extraordinary even by other seasoned travellers standards While most of the book is based on the author's personal experiences different interests and employment sometimes took the friends their separate ways it is basically the story of how the young men lived worked and travelled in numerous countries and of how they succeeded despite all the odds in attaining their goal Above all it is a story about life hardship and happiness frustration and fun obstacles and opportunities adversity romance and personal fulfilment Told in an easy to read engaging way that is guaranteed to keep the reader interested and entertained throughout this is a fascinating account of a unique adventure filled marathon world tour To see some of the author's photographs and additional reviews of this book visit his website www.skillansafaris.com *Athletic Sports in America, England and Australia* Harry Clay Palmer, James Austin Fynes, J. Austin Fynes, Francis C. Richter, William Ingraham Harris, 1889 **Security and Defence in Europe** J. Martín Ramírez, Jerzy Biziewski, 2019-05-24 This book argues that security and defense have never been true priorities in the European Union and have constantly been marginalized by the elites since the Soviet Union collapsed and the Warsaw Pact disintegrated Despite the official rhetoric only a few tangible results can be presented concerning the operational readiness of European forces and the EU's inability to act was proven during the crises in the Balkans NATO has experienced similar problems as the majority of its members are EU countries Both organizations have declared their resolve concerning the security and defense of their nations and territories but unfortunately little has been done to lend these statements credence In this context the book analyzes several aspects of EU security and defense including the EU NATO relationship common defense policy and strategy common capability building common understanding of strategic changes common operational planning and centrally synchronized exercises based on operational planning etc The member states have helped to make EU NATO effective organizations but unfortunately their individual interests and priorities constitute real challenges This aspect should be discussed and addressed by political and military elites scholars analysts students and the general public alike Minerals, Lands and Geology for the Common Defence and General Welfare: 1879-1904 Mary C.
