Famous Men Of Greece:

Famous Men of Greece John Henry Haaren, Addison B. Poland, 1904 **Famous Men of Greece** John H.

Haaren, 2010-11-01 In *Famous Men of Greece* John Haaren teaches the history of that nation chronologically as students read short biographical sketches outlining the lives of important figures. The selections begin with the Greek creation and flood stories then continue with legendary figures like Perseus, Hercules, and Jason. Then come the leaders of the Trojan War: Agamemnon, Achilles, Odysseus. The lawgivers of the Greek cities, Lycurgus, Draco, Solon, are profiled, and the leaders who led the defense of Greece against the Persian invasion are covered: Miltiades, Leonidas, Themistocles. The second half of the book covers the Greek classical period: Pericles, Alcibiades, Socrates, and finally the age of Alexander the Great, Demosthenes, Aristotle, Ptolemy. Children as well as adults will enjoy *Famous Men of Greece*. *Famous Men of Greece* John Henry

Greece. The study of history like the study of a landscape should begin with the most conspicuous features. Not until these have been fixed in memory will the lesser features fall into their appropriate places and assume their right proportions. The famous men of ancient and modern times are the mountain peaks of history. It is logical then that the study of history should begin with the biographies of these men. Not only is it logical, it is also pedagogical. Experience has proven that in order to attract and hold the child's attention, each conspicuous feature of history presented to him should have an individual for its center. The child identifies himself with the personage presented. It is not Romulus or Hercules or Caesar or Alexander that the child has in mind when he reads, but himself acting under similar conditions. Prominent educators, appreciating these truths, have long recognized the value of biography as a preparation for the study of history and have given it an important place in their scheme of studies. The former practice in many elementary schools of beginning the detailed study of American history without any previous knowledge of general history limited the pupil's range of vision, restricted his sympathies, and left him without material for comparisons. Moreover, it denied to him a knowledge of his inheritance from the Greek philosopher, the Roman lawgiver, the Teutonic lover of freedom.
