Haaren, 2018-01-03 Excerpt from Famous Men of Greece The famous men of ancient and modern times are the mountain peaks of history It is logical then that the study of history should begin with the biographies of these men Not only is it logical it is also pedagogical Experience has proven that in order to attract and hold the child's attention each conspicuous feature of history presented to him should have an individual for its center The child identifies himself with the personage presented It is not Romulus or Hercules or Caesar or Alexander that the child has in mind when he reads but himself acting under similar conditions Prominent educators appreciating these truths have long recognized the value of biography as a preparation for the study of history and have given it an important place in their scheme of studies About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Christian Home Educators' Curriculum Manual* Cathy Duffy, 1992 **Famous Men of Greece** John H. Haaren, 2015-06-17 Excerpt from Famous Men of Greece The study of history like the study of a landscape should begin with the most conspicuous features Not until these have been fixed in memory will the lesser features fall into their appropriate places and assume their right proportions The famous men of ancient and modern times are the mountain peaks of history It is logical then that the study of history should begin with the biographies of these men Not only is it logical it is also pedagogical Experience has proven that in order to attract and hold the child's attention each conspicuous feature of history presented to him should have an individual for its center The child identifies himself with the personage presented It is not Romulus or Hercules or Caesar or Alexander that the child has in mind when he reads but himself acting under similar conditions Prominent educators appreciating these truths have long recognized the value of biography as a preparation for the study of history and have given it an important place in their scheme of studies The former practice in many elementary schools of beginning the detailed study of American history without any previous knowledge of general history limited the pupil's range of vision restricted his sympathies and left him without material for comparisons Moreover it

denied to him a knowledge of his inheritance from the Greek philosopher the Roman lawgiver the Teutonic lover of freedom About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
