Edible Architecture:

Eating Architecture Jamie Horwitz, Paulette Singley, 2006-02-17 A highly original collection of essays that explore the relationship between food and architecture the preparation of meals and the production of space The contributors to this highly original collection of essays explore the relationship between food and architecture asking what can be learned by examining the often metaphorical intersection of the preparation of meals and the production of space In a culture that includes the Food Channel and the knife juggling chefs of Benihana food has become not only an obsession but an alternative art form The nineteen essays and Gallery of Recipes in Eating Architecture seize this moment to investigate how art and architecture engage issues of identity ideology conviviality memory and loss that cookery evokes This is a book for all those who opt for the combination platter of cultural inquiry as well as for the readers of M F K Fisher and Ruth Reichl The essays are organized into four sections that lead the reader from the landscape to the kitchen the table and finally the mouth The essays in Place Settings examine the relationships between food and location that arise in culinary colonialism and the global economy of tourism Philosophy in the Kitchen traces the routines that create a site for aesthetic experimentation including an examination of gingerbread houses as art food and architectural space The essays in Table Rules consider the spatial and performative aspects of eating and the ways in which shared meals are among the most perishable and preserved cultural artifacts Finally Embodied Taste considers the sensual apprehension of food and what it means to consume a work of art The Gallery of Recipes contains images by contemporary architects on the subject of eating architecture

Eating Culture Ron Scapp, Brian Seitz, 1998-01-01 Eating has never been simple and contemporary eating practices seem more complicated than ever demanding a multidimensional analysis that strives not for a reductive overview but for a complex understanding Eating Culture offers a number of diverse outlooks on some of the prominent practices and issues associated with the domain of eating

Shattered Forms Allen S. Weiss, 1992-09-17 Art Brut also termed Outsider Art has long been suppressed from most art historical writing Why this rejection The hyperbolic expressions of Romanticism and Symbolism nourished a desire for derangement and dissociation that inspired both Expressionism and Surrealism Simulated delirium became the object of the new art experimental avant garde modernist which arose from the fragmented codes the shattered forms of everyday communication But what of those artists whose works and often whose deliria are the manifestations of sheer eccentricity of social isolation and marginalization or of madness In this book Weiss investigates the origins of the unrestricted contemporary artistic field seeking its sources in those works hitherto absent from the official histories of art works that constitute art s dark interior its disturbing netherworld Secluded occluded excluded Art Brut nevertheless extends the limits of artistic creativity and aesthetic discourse regardless of whatever anxieties such works may produce Shattered Forms explores the relations between Art Brut the psychopathology of expression and avant garde Modernism attempting to show how the consideration of Art Brut should lead to a revision of our theoretical and museological paradigms

should these restive populations be situated relative to the city's spatial politics? Might housing serve as a tool to discipline their behavior? Enter Antonio Bonet, a Catalan architect inspired by the transatlantic modernist and surrealist movements. Ana Mar a Le n follows Bonet's decades-long state-backed quest to house Buenos Aires's diverse and fractious population. Working with totalitarian and populist regimes, Bonet developed three large-scale housing plans, each scuttled as a new government took over. Yet these incomplete plans, Bonet's dreams, teach us much about the relationship between modernism and state power. Modernity for the Masses finds in Bonet's projects the disconnect between modern architecture's discourse of emancipation and the reality of its rationalizing control. Although he and his patrons constantly glorified the people and depicted them in housing plans, Bonet never consulted them. Instead, he succumbed to official and elite fears of the people's latent political power. In careful readings of Bonet's work, Le n discovers the progressive erasure of surrealism's psychological sensitivity replaced with an impulse realized in modernist design to contain the increasingly empowered population.

The Queen's Dumbshows Claire Sponsler, 2014-03-10

No medieval writer reveals more about early English drama than John Lydgate. Claire Sponsler contends. Best known for his enormously long narrative poems *The Fall of Princes* and *The Troy Book*, Lydgate also wrote numerous verses related to theatrical performances and ceremonies. This rich yet understudied body of material includes mumming for London guildsmen and sheriffs' texts for wall hangings that combined pictures and poetry, a Corpus Christi procession and entertainments for the young Henry VI and his mother. In *The Queen's Dumbshows*, Sponsler reclaims these writings to reveal what they have to tell us about performance practices in the late Middle Ages. Placing theatricality at the hub of fifteenth-century British culture, she rethinks what constituted drama in the period and explores the relationship between private forms of entertainment such as household banquets and more overtly public forms of political theater such as royal entries and processions. She delineates the intersection of performance with other forms of representation such as feasts, pictorial displays, and tableaux and parses the connections between the primarily visual and aural modes of performance and the reading of literary texts written on paper or parchment. In doing so, she has written a book of signal importance to scholars of medieval literature and culture, theater history, and visual studies.
