Irish Writing in the Twentieth Century David Pierce, 2000 Arranged chronologically by decade from the 1890s to the 1990s each decade is divided into two different types of writing critical documentary and imaginative writing and is accompanied by a headnote which situates it thematically and chronologically The Reader is also structured for thematic study by listing all the pieces included under a series of topic headings The wide range of material encompasses writings of well known figures in the Irish canon and neglected writers alike This will appeal to the general reader but also makes Irish Writing in the Twentieth Century ideal as a core text providing a unique focus for detailed study in a single volume **BOOK JACKET**

From the Sin-é Café to the Black Hills Eamonn Wall, 1999 Eamonn Wall arrived in the United States in the 1980s as part of a wave of young educated immigrants who became known as the New Irish In this book he comments on his own experiences and those of his generation who identify as much with contemporary ethnic and immigrant America as they do with the long settled Irish American community Wall s starting point is the now closed Sin Caf in New York s East Village which was a hangout in the early 1990s for expatriate Irish musicians

actors and writers He comments on the poetry fiction essays and memoirs of both the New Irish and Americans of Irish heritage locating them within a literary and historical context But this is also a deeply personal book in which Wall wrestles with his own identity as an Irishman living in America raising his children as Americans and learning to love the American landscape from the streets of Manhattan to the western hills of Nebraska

Mail-Orders Sunka Simon,2002-03-21 While the advent and structure of electronic mail has been discussed in web caucuses newspapers hypertext theory and communication theory it has not yet been considered in conjunction with epistolary scenarios in film art and literature To address this gap Mail Orders explores the status of the epistolary form at the end of the twentieth century and its connections to feminist criticism literary theory and postmodernism One of the first works to consider electronic mail in relation to the history of epistolary fiction Mail Orders concerns itself with individual letters as well as fiction written in letter form and widens the debate on the often postulated death of letters by considering the epistolary connections between the eighteenth and twentieth centuries systems of communication and representation

Performing Farmscapes Susan C. Haedicke,2021-12-06 This book argues that the performance based work in the featured case studies contributes to the construction of food democracy where the public takes back decision making in shaping the food system It explores how contemporary artists translate scientific research about local and global agricultural issues into life stories that inform and engage their audiences and in so doing transform passive food consumers into proactive food citizens The pairing of performing and farmscapes complex webs of farmlands and storylines enables artists to use embodied practices to encourage audiences to imagine a just and sustainable agri food system and to collaborate on

making it a reality The book arranges the case studies on a trajectory that moves from projects that foreground knowledge acquisition to ones that emphasize social engagement by creating conversations and coalitions between farming and nonfarming communities to a final one that pairs protest art and political activism to achieve legally binding changes in the agricultural landscape

When Technology Fails Matthew Stein,2008-08-18 There s never been a better time to be prepared This book is an indispensable basic manual for the real life issues that await us in the decades to come A treasure trove of practical wisdom James Howard Kunstler author of The Geography of Nowhere Matthew

Stein's comprehensive primer on sustainable living skills from food and water to shelter and energy to first aid and crisis management skills prepares you to embark on the path toward sustainability. But unlike any other book, Stein not only shows you how to live green in seemingly stable times but to live in the face of potential disasters lasting days or years coming in the form of social upheaval, economic meltdown, or environmental catastrophe. *When Technology Fails* covers the gamut. Inside you'll learn: The basics of installing a renewable energy system for your home or business; How to find and sterilize water in the face of utility failure; How to keep warm if you've been left temporarily homeless; Practical information for dealing with water quality issues; Alternative health and first aid techniques. Each chapter describes skills for self-reliance in good times and bad. Chapters include: A survey of the risks to the status quo; Supplies and preparation for short and long-term emergencies; Emergency measures for survival; Prepping: water, food, shelter, and clothing; First aid, low-tech medicine, and healing; Securing energy, heat, and power; Metalworking; Utensils and storage; Low-tech chemistry; engineering machines and materials. Fully revised and expanded, *When Technology Fails* ends on a positive, proactive note with a chapter on *Making the Shift to Sustainability*, which offers practical suggestions for changing our world on personal, community, and global levels. *When Technology Fails* is a massive project done well. First, the book gives a superb presentation of WHY one should be more aware and prepared, and then HOW one should go about this. The scope of this book is thorough. John McPherson, author *Primitive Wilderness Living and Survival Skills*.
