significance of class status race and culture in determining American identity Noel shows not only how the definition of American was contested but also how the economic and political power of people of Mexican descent their desire to incorporate as Americans or not and the demand for their territory or labor by other Americans played an important part in shaping decisions about statehood and national immigration policies Debating American Identity skillfully shows how early twentieth century debates over statehood influenced later ones concerning immigration in doing so it resonates with current discussions resulting in a well timed look at twentieth century citizenship *Native Tours* Erve Chambers,2019-06-20
