of contest in such arenas as spectator sports politics business academia and religion Human beings internalization of agonistic drives he concludes can foster the deeper discovery of the self and of distinctively human freedom **Lost Letters of Medieval Life** Martha Carlin, David Crouch, 2013-03-22 Drawn from two medieval collections of form letters for all manner of business and personal affairs *Lost Letters of Medieval Life* depicts early thirteenth century England through the everyday correspondence of people of all classes from peasants and shopkeepers to bishops and earls *The Literature of Education* W. Kenneth Richmond, 2019-01-15 Original blurb The volume of writing on educational topics has increased so prodigiously in recent years that the student is likely to lose himself in a sea of print This may lead him to opt for the first book that comes to hand or waste time rifling through half a dozen when a thorough grasp of one key text is all that is needed Reading lists commonly look impressive not to say daunting In fact the multifarious titles conceal an enormous amount of duplication an endless raking over of other people's research findings It is a safe bet writes W Kenneth Richmond that less than 5 percent of the contents of any new book on education will be in any way original This critical bibliography originally published in 1972 is concerned with the noteworthy books and major official reports that had appeared in the English language during the twenty five years prior to publication In his introduction and in the commentaries prefacing each section the author explains the background to the genuinely new departures of the period and describes successive changes in the climate of educational opinion *Apocalyptic Shakespeare* Melissa Croteau, Carolyn Jess-Cooke, 2014-01-10 This collection of essays examines the ways in which recent Shakespeare films portray anxieties about an impending global wasteland technological alienation spiritual destruction and the effects of globalization Films covered include Titus William Shakespeare's *Romeo Juliet* Almereyda's *Hamlet* *Revenagers* *Tragedy Twelfth Night* *The Passion of the Christ* Radford's *The Merchant of Venice* *The Lion King* and Godard's *King Lear* among others that directly adapt or reference Shakespeare Essays chart the apocalyptic mise en scenes disorienting imagery and topsy turvy plots of these films using apocalypse as a theoretical and thematic lens *The English Radical Imagination* Nicholas McDowell, 2003 *The English Radical Imagination* addresses current critical assumptions about the nature of radical thought and expression during the English Revolution Through a combination of biographical and literary interpretation it revises the representation of radical writers in this period as ignorant and uneducated tub preachers This representation has become a critical orthodoxy since Christopher Hill's seminal study *The World Turned Upside Down* 1972 Despite the reservations of so called revisionist historians about the misleading implications of Hill's work cultural historians and literary critics have continued to view radical texts as authentic artefacts of a form of early modern popular culture This book challenges the divide between elite and popular culture in the seventeenth century While research has revealed that the rank and file of the more organized radical movements was composed of the lower middling sort of people who had little or no access to the elite intellectual culture of the period some of the most important and most discussed radical writers had been to university in the 1620s and 1630s Chapters 1 2

investigate how critics especially those sympathetic to the radicals have tended to repeat hostile contemporary stereotypes of the ideologists and publicists of radicalism as illiterate Mechanick persons The failure to recognize the elite cultural background of these writers has resulted in a failure to acknowledge the range of their intellectual and rhetorical resources and consequently in a misrepresentation of the sophistication of both their ideas and their writing Chapters 3 5 are case studies of some of the most important and innovative radical writers They show how these writers use their experience of an orthodox humanist education for the purposes of satire and ridicule and how they interpret texts associated with orthodox ideologies and cultural practices to produce heterodox arguments Radical prose of the English Revolution thus emerges as a more complex literary phenomenon than has hitherto been supposed lending substance to recent claims for its admission to the traditional literary canon
