surpassed wartime death tolls Those who once feared the police and the state became frustrated by their lack of action Peace was not what Salvadorans had hoped it would be Citizens began saying to each other It s worse than the war El Salvador in the Aftermath of Peace Crime Uncertainty and the Transition to Democracy challenges the pronouncements of policy analysts and politicians by examining Salvadoran daily life as told by ordinary people who have limited influence or affluence Anthropologist Ellen Moodie spent much of the decade after the war gathering crime stories from various neighborhoods in the capital city of San Salvador True accounts of theft assaults and murders were shared across kitchen tables on street corners and in the news media This postconflict storytelling reframed violent acts rendering them as driven by common criminality rather than political ideology Moodie shows how public dangers narrated in terms of private experience shaped a new interpretation of individual risk These narratives of postwar violence occurring at the intersection of self and other citizen and state the powerful and the powerless offered ways of coping with uncertainty during a stunted transition to democracy Militarization and Demilitarization in El Salvador's Transition to Democracy Philip J. Promoting Party Politics in Emerging Democracies Peter Burnell, Andre W. M. Gerrits, 2013-09-13 This book offers a critical and comparative examination of international support to political parties and party systems in emerging and prospective new democracies in several world regions. It combines the insights of a strong international grouping of leading academics and pioneering doctoral studies and draws on extensive new field work inquiries. The wide ranging coverage pools evidence from countries in Europe and Eurasia, Africa, East Asia and Central America. The book shows how far international support still has to go if it is to achieve its aims of helping party politics make a constructive contribution to furthering democracy. It advances our understanding both of the role the political parties are playing in the different polities and the sometimes negative impact of democracy promotion actors from outside. By contributing original theoretical perspectives and empirical findings, the book points the way forward to agendas for future research and new courses of action. It will be of interest to academics and the policy making and practitioner communities alike. This book was published as a special issue of Democratizations.

Comparative Peace Processes in Latin America Cynthia Arnson, 1999 This book is about ending guerrilla conflicts in Latin America through political means. It is about peace processes aimed at securing an end to military hostilities in the context of agreements that touch on some of the principal political, economic, social and ethnic imbalances that led to conflict in the first place. The book presents a carefully structured comparative analysis of six Latin American countries: Nicaragua, El Salvador, Guatemala, Mexico, Colombia and Peru, which experienced guerrilla warfare that outlasted the end of the Cold War. The book explores in detail the unique constellation of national and international events that allowed some wars to end in negotiated settlement, one to end in virtual defeat of the insurgents and the others to rage on. The aim of the book is to identify the variables that contribute to the success or failure of a peace dialogue. Though the individual case studies deal with dynamics that have allowed for or impeded successful negotiations, the contributors also examine comparatively such recurrent dilemmas as securing justice for victims of human rights abuses, reforming the military and police forces and reconstructing the domestic economy. Serving as a bridge between the distinct literatures on democratization in Latin America and on conflict resolution, the book underscores the reciprocal influences that peace processes and democratic transition have on each other and the ways democratic space is created and political participation enhanced by means of a peace dialogue with insurgent forces. The case studies by country and issue specialists from Latin America, the United States and Europe are augmented by commentaries of senior practitioners most directly involved in peace negotiations, including United Nations officials, former peace advisers and activists from civil society.
