El Salvador Who Speaks For The People:

El Salvador, who Speaks for the People? Mario Gómez-Zimmerman, 1989 *Shattered Voices* Teresa Godwin Phelps, 2010-11-24 Following periods of mass atrocity and oppression states are faced with a question of critical importance in the transition to democracy how to offer redress to victims of the old regime without perpetuating cycles of revenge Traditionally balance has been restored through arrests trials and punishment but in the last three decades more than twenty countries have opted to have a truth commission investigate the crimes of the prior regime and publish a report about the investigation often incorporating accounts from victims Although many praise the work of truth commissions for empowering and healing through words rather than violence some condemn the practice as a poor substitute for traditional justice achieved through trials and punishment There has been until now little analysis of the unarticulated claim that underlies the truth commissions very existence that language in this case narrative stories can substitute for violence Acknowledging revenge as a real and deep human need *Shattered Voices* explores the benefits and problems inherent when a fragile country seeks to heal its victims without risking its own future In developing a theory about the role of language in retribution Teresa Godwin Phelps takes an interdisciplinary approach delving into sources from Greek tragedy to Hamlet from Kant to contemporary theories about retribution from the Babylonian law codes to the South African Truth and Reconciliation Report She argues that given the historical and psychological evidence about revenge starting afresh by drawing a bright line between past crimes and a new government is both unrealistic and unwise When grievous harm happens a rebalancing is bound to occur whether it is orderly and lawful or disorderly and unlawful *Shattered Voices* contends that language is requisite to any adequate balancing and that a solution is viable only if it provides an atmosphere in which storytelling and subsequent dialogue can flourish In the developing culture of ubiquitous truth reports Phelps argues that we must become attentive to the form these reports take the narrative structure the use of victims stories and the way a political message is conveyed to the citizens of the emerging democracy By looking concretely at the work and responsibilities of truth commissions *Shattered Voices* offers an important and thoughtful analysis of the efficacy of the ways human rights abuses are addressed Congressional Record United States. Rivas,2014-03-31 Ravaged by civil war throughout the 1980s and 1990s El Salvador has now emerged as a study in contradictions It is a country where urban call centers and shopping malls exist alongside rural poverty It is a land now at peace but still grappling with a legacy of violence It is a place marked by deep social divides yet offering a surprising abundance of inclusive spaces Above all it is a nation without borders as widespread emigration during the war has led Salvadorans to develop a truly transnational sense of identity In *Salvadoran Imaginaries* Cecilia M Rivas takes us on a journey through twenty first century El Salvador and to the diverse range of sites where the nation s postwar identity is being forged Combining field ethnography with media research Rivas deftly toggles between the physical spaces where the new El Salvador is starting to emerge and the virtual spaces where Salvadoran identity is being imagined including newspapers literature and digital media This interdisciplinary approach enables her to explore the multitude of ways that Salvadorans negotiate between reality and representation between local neighborhoods and transnational imagined communities between present conditions and dreams for the future Everyday life in El Salvador may seem like a simple matter but Rivas digs deeper across many different layers of society revealing a wealth of complex feelings that the nation s citizens have about power opportunity safety migration and community Filled with first hand interviews and unique archival research *Salvadoran Imaginaries* offers a fresh take on an emerging nation and its people *New York Magazine* ,1982-04-12 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Intersections of Peace and Language Studies** Erin A. on pedagogical practices and critical discussions of major topics centered on the intersection of language studies and peace. Consistent with the mission of ISLS the collection of 13 chapters in this volume seeks to bridge these arbitrary disciplinary territories and provide a forum for both theoretical and empirical research from existing and emergent research methodologies for exploring the relationships among language power discourses and social practices. Language and peace are in themselves incredibly complex concepts. They are simultaneously interpersonal in their function and effect as well as intimately personal in their experience. From everyday communication to the pragmatics of world diplomacy from embracing a foreign culture to embarking upon a journey of self awareness language and peace are inseparably intertwined. To reveal their myriad interconnections in local and global contexts is a limitless task nevertheless we attempt to bring you a few glimpses from far corners of the world. It is also a linguistic and postcolonial mission of this society and the book series to publish the voices of non native speakers of English. Decolonizing the academic enterprise is part of our commitment to diversity.
