Museums in the New Mediascape Jenny Kidd, 2016-04-22 The museum today faces complex questions of definition representation ethics aspiration and economic survival Alongside this we see burgeoning use of an array of new media including increasingly

dynamic web portals and content digital archives social networks blogs and online games At the heart of this are changes to the idea of visitor and audience and their participation and representation in the new cultural sphere This insightful book unpacks a number of contradictions that help to frame and articulate digital media work in the museum and questions what constitutes authentic participation Based on original empirical research and a range of case studies the author explores

questions about the museum as media from a number of different disciplines and shows that across museums and the study of them the cultural logic is changing *Life on Display* Karen A. Rader, Victoria E.M. Cain, 2014-10-03 Rich with archival detail and compelling characters *Life on Display* uses the history of biological exhibitions to analyze museums shifting roles in twentieth century American science and society Karen A Rader and Victoria E M Cain chronicle profound changes in these exhibitions and the institutions that housed them between 1910 and 1990 ultimately offering new perspectives on the history of museums science and science education Rader and Cain explain why science and natural history museums began to welcome new audiences between the 1900s and the 1920s and chronicle the turmoil that resulted from the introduction of new kinds of biological displays They describe how these displays of life changed dramatically once again in the 1930s and 1940s as museums negotiated changing often conflicting interests of scientists educators and visitors The authors then reveal how museum staffs facing intense public and scientific scrutiny experimented with wildly different definitions of life science and life science education from the 1950s through the 1980s The book concludes with a discussion of the influence that corporate sponsorship and blockbuster economics wielded over science and natural history museums in the century's last decades A vivid entertaining study of the ways science and natural history museums shaped and were shaped by understandings of science and public education in the twentieth century United States *Life on Display* will appeal to historians sociologists and ethnographers of American science and culture as well as museum practitioners and general readers

Reculturing Museums Doris B. Ash, 2022-02-27 Reculturing Museums takes a unified sociocultural theoretical approach to analyze the many conflicts museums experience in the 21st century Embracing conflict Ash asks What can practitioners and researchers do to create the change they want to see when old systems remain stubbornly in place Using a unified sociocultural cultural historical activity theoretical approach to analyzing historically bound conflicts that plague museums each chapter is organized around a central contradiction including finances Who will pay for museums demographic shifts Who will come to museums the roles of narratives Whose story is it ownership of objects Who owns the artifact and learning and teaching What is learning and how can we teach equitably The reculturing stance taken by Ash promotes social justice and equity making change first within museums called inreach rather than outside the museum called outreach challenges existing norms is sensitive to neoliberal and deficit ideologies and pays attention to the structure agency dialectic Reculturing Museums will be essential reading for academics students museum practitioners educational researchers and others who care about museums and want to ensure that all people have equal access to the activities objects and ideas residing in them *Tourism Support Services* Patrick Kalasa Kalifungwa, 2025-06-02 Tourism can thrive anywhere in the World on Land on sea and in the Air Certain parameters have to exist to facilitate its establishment and growth We have tried to explore various aspects that require being in place to support tourism development and growth The development of technology and transport infrastructure such as jumbo jets low cost airlines and more accessible airports have made many types of tourism to be more affordable Airplanes facilitate tourism mobility and receipts The more planes you land at an airport the more visitors you receive The ultimate goal of tourism promotion and marketing is an increase in visitors and investments The tourism Industry is unlike any other industries because Instead of a physical product you are selling a place and all the things it has to offer services You are competing with the entire world every time you promote tourism in a given destination and this high level of competition demands a creative and unique approach The variability among living

organisms from all sources including inter alia terrestrial marine and other aquatic ecosystems and ecological complexes support tourism development Natural environment or wilderness wild animals rocks birds forest and in general those things that have not been substantially altered by human intervention support tourism activities Therefore support services have to complement the sustenance of tourism at various levels Libraries, Archives, and Museums Suzanne M.

Fromm,Viv Golding,Per B. Rekdal,2014-10-16 Museums are usually seen as arenas for the authorised presentations of reality based on serious

professional knowledge Yet in spite of the impossibility of giving anything but a highly abstract and extremely selective impression in an exhibition very few museums problematize this or discuss their priorities with their public They don't ask what are the other truths of the matter Though the essays in this collection are not written with museums and truth as their explicit subject they highlight contested truths the absence of the truth of the underprivileged whether one truth is more worthy than the other and whether lesser truths can dilute the value of greater truths One of the articles included here lets youngsters choose which truth is most probable or just while another talks about an exhibition where the public must choose which truth to adhere to before entering One shows how a political change gives a new opportunity to finally restore valuable truths of the past to the present and another describes the highly dangerous task of making museums and memorials for the truths of the oppressed Lastly one explores whether we live in a period where the sources for authorized truths are fragmented and questioned and asks what should the consequences for museums be

Intentional Practice for Museums
Randi Korn, 2018-11-05 Intentional practice is an impact driven way of thinking and working that places a museum's raison d'être achieving impact at the center of its work A prerequisite to achieving impact is articulating the kind of impact the museum would like to achieve An impact statement embodies three essential ideas staff members' passions for their work the museum's distinct qualities and notions of what is relevant to audiences The statement as well as other work generated from intentional practice becomes part of an Impact Framework that serves as a guidepost for all subsequent work as any and all museum work should focus on achieving its intended impact If the museum chooses work that moves it away from its central purpose it is wasting resources dollars and staff time Intentional Practice for Museums A Guide for Maximizing Impact first explains how the idea of intentional practice grew from a confluence of political concerns observations of museum in the marketplace and the increasingly deafening call for museums to be accountable The book presents and deconstructs the Cycle of Intentional Practice which includes four quadrants with actions and corresponding questions situated around the centerpiece impact In no particular order The Plan quadrant asks What impact do you want to achieve The Evaluate quadrant asks In what ways have you achieved impact The Reflect quadrant asks What have you learned What can you do better and The Align quadrant asks How do we align our actions to achieve impact The Cycle is symbolic too as impact driven work is ongoing and museums that choose to pursue impact through intentional practice will benefit as will their audiences both will continually learn albeit through very different means Intended for intentionally minded museum professionals the book also describes the seven principles of intentional practice and provides basic intentional practice strategies exercises and facilitation questions so they can begin facilitating impact driven workshops at their museums

Chip Colwell, 2017-03-08 A leading anthropologist explores the fraught project of repatriating Native American sacred objects in this moving and thoughtful work Publishers Weekly Who own the objects that connect us to history And who has the right to decide particularly when the objects are sacred or in the case of skeletal remains human As senior curator of anthropology at the Denver Museum of Nature Science Chip Colwell has navigated questions like these firsthand In Plundered Skulls and Stolen Spirits he examines how to weigh the religious freedom of Native Americans against the academic freedom of scientists and whether the emptying of museum shelves elevates human rights or destroys a common heritage Today hundreds of tribes use the Native American Graves Protection and Repatriation Act to recover their looted heritage from museums across the country Colwell shares a personal account of this process following the trail of four objects as they were created collected and ultimately returned to their sources a sculpture that is a living god the scalp of a massacre victim a ceremonial blanket and a skeleton from a tribe considered by some to be extinct These stories reveal a dramatic process that involves not merely obeying the law but negotiating the blurry lines between identity and morality spirituality and politics Repatriation Colwell argues is a difficult but vitally important way for museums and tribes to heal the wounds of the past while creating a respectful approach to caring for these rich artifacts of history
