Elder Olson Elder Olson, 1958 **Encyclopedia of Contemporary Literary Theory** Irene Rima Makaryk, 1993-01-01
The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist and sometimes conflict within it. Irene Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the *Encyclopedia of Contemporary Literary Theory* provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture. **ELDER OLSON. BY THOMAS E. LUCAS.** THOMAS E. LUCAS, 1972 **Resistant Structures** Richard Strier, 2023-09-01
Taking Wittgenstein's "Don't think but look" as his motto, Richard Strier argues against the application of a priori schemes to Renaissance and all texts. He argues for the possibility and desirability of rigorously attentive but pre-theoretical reading. His approach privileges particularity and attempts to respect the resistant structures of texts. He opposes theories critical and historical that dictate in advance what texts must or cannot say or do. The first part of the book, *Against Schemes*, demonstrates in discussions of Rosemond Tuve, Stephen Greenblatt, and Stanley Fish, among others, how both historicist and purely theoretical approaches can equally produce distortion of particulars. The second part, *Against Received Ideas*, shows how a variety of texts by Shakespeare, Donne, Herbert, and others have been seen through the lenses of fixed, mainly conservative ideas in ways that have obscured their actual, surprising and sometimes surprisingly radical content. Taking Wittgenstein's "Don't think but look" as his motto, Richard Strier argues against the application of a priori schemes to Renaissance and all texts. He argues for the possibility and desirability of rigorously attentive but pre-theoretical reading. **Literary Criticism in Theory and Practice** Ravindra Nath Shrivastava, 2004

In the Event of Laughter Alfie Bown, 2018-11-15 Using Lacanian psychoanalysis as well as its pre history and afterlives *In the Event of Laughter* argues for a new framework for discussing laughter Responding to a tradition of comedy studies that has been interested only in the causes of laughter in why we laugh it proposes a different relationship between laughter and causality Ultimately it argues that laughter is both cause and effect troubling chronological time and asking for a more nuanced way of conceiving the relationship between subjects and their laughter than existing theories have accounted for Making this visible via psychoanalytic ideas of retroactivity Alfie Bown explores how laughter far from being a mere response to a stimulus changes the relationship between the present the past and the future Bown investigates this hypothesis in relation to a range of comic texts from the history of laughter discussing Chaucer Shakespeare Kafka and Chaplin as well as lesser known but vital figures from the comic genre

The Values of Literary Studies Rónán

McDonald, 2015-11-24 What is valuable about literary studies What is its point and purpose *In The Values of Literary Studies* Critical Institutions Scholarly Agendas leading scholars in the field illuminate both the purpose and priorities of literary criticism At a time when the humanities are increasingly called upon to justify themselves this book seeks to clarify their myriad values and ideologies Engaging the idea of literary value while at the same time remaining attuned to aesthetic ethical political and psychological principles this book serves to underscore the enduring significance of literary studies in an academic climate that is ostensibly concerned with expediency and quantification As a sophisticated examination of literary theory and criticism *The Values of Literary Studies* Critical Institutions Scholarly Agendas provides a comprehensive and hopeful view of where the discipline is now and what avenues it is likely to take from here

Tragic Method and Tragic Theology Larry D. Bouchard, 2010-11 The book moves in a nonreductive way between literary and theological criticism to show how drama and religious thought discern the experience

of evil tragic theology refers to how drama and theology render in thematic or symbolic form certain irreducible dimensions of evil and negativity Bouchard defines no single tragic method or any single view of evil but searches for the distinctive interplay of tragic method of theology in each dramatist The work opens by scrutinizing certain important interpretations of Greek tragedy Paul Ricoeur's interpretation of the Wicked God and the Tragic Vision receives major focus as does Sophocles who as a tragedian dramatized the action of inquiry and interpretation Bouchard then examines Augustine's views of evil and sin Reinhold Niebuhr's critique of the ironies of history and Tillich's conceptions of the demonic By interpreting tragedy in terms of sin or the effects of sin each theologian resists implications in his own thought pointing to a less resolvable tragic theology And yet these theologians also contribute very creative understandings of the irreducible character of evil and tragic experience Substantive and original readings of three playwrights are offered Rolf Hochhuth's tragedy of vocation The Deputy Robert Lowell's trilogy of American historical blindness The Old Glory and Peter Shaffer's dreams of tragic awareness and accountability in Equus and Amadeus revealing new permutations of the irreducibility of evil in contemporary Christian and Jewish religious thinkers who may be helpful in this task and concludes with a description of the experience of perplexed thought self critical in view of tragedy's witness to irreducibility of evil Structures of Avarice

Reason and the Nature of Texts James L. Battersby, 2016-11-11 Many of today's most prominent critics and teachers of literature insist on the endless deferral of textual meaning and on the social construction of meaning and thought Against these markers of current critical theory James L Battersby argues for the authorial construction of determinate textual meaning insisting that to think about anything at all we must be able to refer to it and that such references are necessarily the semantic consequences of an author's deliberate intentional acts Propelling Battersby's argument is his use of principles and arguments drawn from current philosophical literature on language and mind Battersby reveals the philosophical

shortcomings and argumentative weaknesses of some of the most prominent and influential doctrines in critical theory today especially and principally those that inform and define postmodernism in both its linguistic and historicist materialist modes As he argues for a fresh conception of our understanding of language mind and meaning Battersby probes the critical positions of among others Stanley Fish Mikhail Bakhtin Paul de Man and Jacques Derrida Making room for an alternative and Battersby asserts more intellectually appealing framework requires a skeptical dissection of the linguistic and historicist tenets that form the foundation of poststructuralism The striking outcome of his effort is a book as lively erudite theoretically informed and provocative as his earlier Paradigms Regained
