Who Will Be the Next President? Alexander S. Belenky, 2016-11-15 This book is open access under a CC BY 4.0 license This book addresses the peculiarities of the current presidential election system not yet addressed in other publications It argues that any rules for electing a President that may have a chance to replace the current ones should provide an equal representation of states as equal members of the Union and of the nation as a whole This book analyzes the National Popular Vote plan and shows that this plan may violate the Supreme Court decisions on the equality of votes cast in statewide popular elections held to choose state electors That is the National Popular Vote plan may violate the Equal Protection Clause of the Fourteenth Amendment The book proposes a new election system in which the will of the states and the will of the nation as a whole are determined by direct popular elections for President and Vice President in the 50 states and in D C This system a would elect President a candidate who is the choice of both the nation as a whole and of the states as equal members of the Union b would let the current system elect a President only if the nation as a whole and the states as equal members of the Union fail to agree on a common candidate and c would encourage the candidates to campaign nationwide The second edition has been updated to include a proposal on how to make established non major party presidential candidates and independent candidates welcome participants in national televised presidential debates with the

The election of the President of the United States of America is an indirect vote in which citizens cast ballots for a slate of members of the U S Electoral College These electors cast direct votes for the President and Vice President If both votes result in an absolute majority the election is over If a majority of electors do not vote for President the House of Representatives chooses the President if a majority of electors do not vote for Vice President the Senate votes Presidential elections occur quadrennially on Election Day which since 1845 has been the Tuesday after the first Monday in November coinciding with the general elections of various other federal state and local races The process is regulated by a combination of both federal and state laws Each state is allocated a number of Electoral College electors equal to the number of its Senators and Representatives in the U S Congress Additionally Washington D C is given a number of electors equal to the number held by the least populous state U S territories are not represented in the Electoral College Under the U S Constitution each state legislature is allowed to designate a way of choosing electors Thus the popular vote on Election Day is conducted by the various states and not directly by the federal government In other words it is really an amalgamation of separate elections held in each state and Washington D C instead of a single national election Once chosen the electors can vote for anyone but with rare exceptions like an unpledged elector or faithless elector they vote for their designated candidates and their votes are certified by Congress who is the final judge of electors in early January The presidential term then officially begins on Inauguration Day January 20 although the formal inaugural ceremony traditionally takes place on the 21st if the 20th is a Sunday This book outlines the rather complex process of electing The President of The United States of America POTUS *Election of the President* United States.
