Competition Market Study of Ukraine's Electricity Sector OECD,2023-06-30 This market study analyses Ukraine s electricity sector from a competition perspective It provides a detailed description and assessment of the regulatory framework within which the Ukrainian electricity markets operate as well as an analysis of the obstacles to competition in the wholesale and retail markets

Electricity in Household and Micro-enterprises Joy Clancy,Lucy Redeby,2000 This book aims to provide help in gaining accessibility to electricity for those living in rural communities The book begins with a brief introduction to the national grid and then focuses on some of the possibilities for independent production of electricity in quantities used by households micro enterprises and small communities *Renewable Energy for Microenterprise* ,

The Welfare Impact of Rural Electrification ,2008-01-01 Rural electrification can have many benefits not only bringing lighting but improving the quality of health care spreading information and supporting productive enterprises The extent of these benefits has been questioned arguing that they may be insufficient to justify the investment costs This book quantifies these benefits It finds that the benefits can indeed be high substantially outweighing the costs and that consumer willingness to pay is generally sufficient to achieve financial sustainability However benefits could be increased further by providing smart subsidies to assist connections for poorer households promote productive uses and further consumer education

No Small Hope Kenneth A. Reinert,2018 No Small Hope calls for a rethinking of global policy advocating for a basic goods approach focused on the provision of nutritious food clean water sanitation health services education services housing electricity and human security services The book offers a practical agenda based on the real determinants of human development

How Do Households Consume Energy?: Evidence from Latin American and Caribbean Countries Raul Jimenez Mori,Ariel Yépez-Garcia,2020-11-22 How do households consume and spend on energy What are the drivers of their spending and consumption patterns How does energy consumption has evolved What is to be expected as the region climbs the development ladder What are the distributive implications of different energy pricing approaches This book looks at these questions and examines which policies work in reducing energy poverty and increasing energy savings The authors unveil the growing household demand of better quality of energy and show that to achieve more cost effective and progressive public policies it is necessary to strengthen the transparency and sustainability of energy pricing while having into account the consumer behavioral responses This volume is a resource for designing energy policies based on an empirical understanding of the household s energy needs [Financing Clean Energy in Developing Asia—Volume 1](#) Asian

Development Bank,2021-09-01 This book is the first of two volumes that review various approaches and instruments that have been tried tested and utilized to scale up clean energy development in Asia and the Pacific This volume examines clean energy investment needs and financing gaps in the region and reviews existing financing options and approaches including examples of how these have been applied Innovative solutions for mobilizing private finance and managing risks associated

with clean energy investments are also discussed Impact Evaluation of Energy Interventions David A. Raitzer, Nina Blöndal, Jasmin Sibal, 2019-04-01 This report aims to support impact evaluation in the energy sector by assessing what has been produced against what might be possible It reviews 85 impact evaluations of energy interventions in developing countries summarizes findings on outcomes identifies evidence gaps and proposes ways forward A majority of studies has so far focused on rural electrification and improved cookstoves while most investments are in power generation and transmission After considering the body of evidence available directions and approaches are proposed for future impact evaluations to best contribute new evidence regarding the sector **Asia Small and Medium-Sized Enterprise Monitor 2021 Volume III** Asian Development Bank, 2022-04-01 This thematic third volume of the Asia Small and Medium Sized Enterprise Monitor 2021 focuses on the digitalization of microfinance in Bangladesh The MSME sector provides much of the income in rural Bangladesh but its growth is constrained by limited access to affordable finance This volume reports on a 2021 baseline study carried out in Bangladesh to pilot a randomized controlled trial to determine whether a digitalized group based credit scheme could be introduced at an affordable price The findings provide justification for further study on the digitalization of microfinance **Nonfarm Microenterprise Performance and the Investment Climate: Evidence from Rural Ethiopia** Mans Soderbom, **Women and the Energy Revolution in Asia** Reihana Mohideen, 2019-10-29 This book examines the low carbon energy transition taking place in developing Asia in the context of persisting social and gender inequalities the threat of climate change which has necessitated the decarbonisation of industry and examines how developing Asia can leap frog the carbon emitting stages that more developed economies have passed through while simultaneously leap frogging social and gender equity gaps The book uses the concept of disruptive technologies an area of study that assesses the potential of certain technologies to disrupt the status quo and the concept of socio technical frameworks where social considerations are factored in to engineering systems and models Using case studies and methodologies drawn from interdisciplinary approaches to engineering and from development studies science and technology studies and feminist approaches it assesses how the low carbon energy transition potentially provides poor women in developing Asia the opportunity to get on board at the early phase of these changes and influence and even transform their societies and lives Energy Poverty Antoine Halff, Benjamin K. Sovacool, Jon Rozhon, 2014-11-27 This edited volume looks at energy poverty an issue whose pivotal role in the fight for human development is only now being recognised by policymakers Nearly one quarter of humanity still lacks access to electricity Close to one third rely on traditional fuels like firewood and cow dung for cooking at great cost to their health and welfare While most prevalent in parts of Africa and Asia energy poverty is a global problem which concerns us all This book which brings together economists policymakers entrepreneurs and other practitioners from all over the world is dedicated to a single goal finding a solution to this haunting problem It is part history part economics part political analysis part business case review and part field handbook Part One

focuses on defining and measuring the problem and benchmarking progress in solving it an obvious prerequisite to any successful energy access policy Part Two reviews past and current energy access programs with an eye towards finding out what worked and what didn't and what can be replicated elsewhere These case reviews are told as seen on the ground China's experience by top Chinese officials and Africa's by African regulators and scholars Based in part on those cases the book's last more forward looking section aims to present practitioners with a tool kit a menu of options to speed up their efforts The energy access agenda is gaining traction at a time of rising concerns about climate change and resource constraints This book shows that bringing modern energy to those who lack it not just a moral imperative but will likely benefit the world as a whole without harming the environment or unduly stretching finite resources

Alleviating Global Poverty Lewis D. Solomon, 2014-12-05 In the book Lewis D Solomon develops the theme that the profit motive can serve as a powerful force for social good in developing nations making a difference in the lives of those trapped in misery and helping millions out of poverty After focusing on three US based venture capital like firms the book presents evidence that for profit corporations many indigenous funded in part by these capital providers have alleviated global poverty These investee firms which seek both financial and social returns serve the impoverished by delivering critically needed but affordable goods and services including quality education preventive healthcare light and power and enhanced agricultural productivity

Mini Grid Solutions for Underserved Customers Bernard Tenenbaum, Chris Greacen, Ashish Shrestha, 2024-03-06 Mini grids are serving communities with existing but unreliable main grid connections by providing dependable electricity when the main grid fails The success of mini grids hinges on commercial technical and regulatory frameworks designed to achieve win win win outcomes for consumers distribution companies and private developers
