**Splinters of Light** Donna Swanson,2011-03-07 John tells us in his gospel that we are the light When we accept Christ and become part of the family of God we are put on a lamp stand We are the city on the hill People will see us Our light will shine The only choice we have is the amount of Light we allow through the cracks in these earthen vessels So how do we do it What does it mean to shine to illuminate I can say only that we shine in spite of ourselves Our shining is not a product of our own labor It is not something we can will into being Rather it is the byproduct of a life lived in the presence of the true Light We are a reflection of Him The brilliance of that reflection the penetrating power of Christ s Spirit in our lives is His gift to us As we allow our hearts to overflow with His goodness mercy and love with the knowledge of who He is and what He is that goodness and mercy and awesome reality somehow manifests itself to those around us The love we receive from Him flows naturally into our world and into the lives of those with whom we come in contact Now I offer to you those words He would not let me ignore words that crowded behind walls of hesitancy words that tumbled through the cracks and became splinters of light May Christ be honored and a tiny part of His glory revealed in these small splinters **Packard** Packard

Bell,2006-12-15 From the early 1960s until his death French philosopher Gilles Deleuze 1925 1995 wrote many influential works on philosophy literature film and fine art One of Deleuze s main philosophical projects was a systematic inversion of the traditional relationship between identity and difference This Deleuzian philosophy of difference is the subject of Jeffrey A Bell s Philosophy at the Edge of Chaos Bell argues that Deleuze s efforts to develop a philosophy of difference are best understood by exploring both Deleuze s claim to be a Spinozist and Nietzsche s claim to have found in

Spinoza an important precursor Beginning with an analysis of these claims Bell shows how Deleuze extends and transforms concepts at work in Spinoza and Nietzsche to produce a philosophy of difference that promotes and in fact exemplifies the notions of dynamic systems and complexity theory With these concepts at work Deleuze constructs a philosophical approach that avoids many of the difficulties that linger in other attempts to think about difference Bell uses close readings of Plato Aristotle Spinoza Nietzsche Heidegger Derrida and Whitehead to illustrate how Deleuze s philosophy is successful in this regard and to demonstrate the importance of the historical tradition for Deleuze Far from being a philosopher who turns his back on what is taken to be a mistaken metaphysical tradition Bell argues that Deleuze is best understood as a thinker who endeavoured to continue the work of traditional metaphysics and philosophy
