Johnson, 1981-01-01 **Collecting the Edged Weapons of the Third Reich** Thomas M. Johnson, A. Bram Wasmus, 1988 **Edged Weaponry of the Third Reich** John R. Angola, 1974 **Third Reich Collectibles** Chris William, 2015-10-05

The rise and fall of Germany's Third Reich is one of the most studied, investigated, and collected episodes of military history. A reign of terror that rose to near world domination during the 1930s and early 1940s, Adolph Hitler's Germany continues to fascinate generations of scholars and students of history alike. The Third Reich's insatiable drumbeat of pageantry and propaganda produced countless uniforms, insignia, medals, flags, daggers, swords, and headgear comprising one of the most desired categories in all of military collectibles to study, understand, and own.

Groundbreaking in scope and execution, *Third Reich Collectibles* features more than 1,300 color images with descriptions and values for Uniforms, Helmets, Headgear, Flags, Badges, Membership pins, Patches, Armbands, Firearms, Blades, Equipment, Paper IDs, Signage, and more associated with the military and paramilitary groups of the Third Reich. Throughout the book, you'll also find historical background information and period photographs capturing everyday Nazi Germany.

Imperial German Edged Weaponry Thomas Johnson, 2008-01-01

This three-volume set on Imperial German swords, daggers, and bayonets is a follow-up to the author's successful and highly acclaimed four-volume series on World War II German swords, 2005, and his equally heralded three-volume series on World War II German swords, 2006, both sets from Schiffer Publishing. These new Imperial volumes are the result of many years of arduous research on both sides of the Atlantic with several dozen advanced Imperial blade collectors making contributions. Additionally, the author's long-term relationship with key personnel in the Solingen edged weapon industry opened numerous doors in the preparation of this invaluable reference series. No one can doubt the fact that the quality of the Imperial sidearms far surpasses their subsequent mass-produced Third Reich counterparts. The author was afforded complete access to two of the most advanced Imperial edged weapon collections in the United States and one in Germany. Whether you own a single Imperial German edged weapon or have a massive collection of these beautiful artifacts, this series of references will greatly expand your knowledge and appreciation of these unique sidearms and will prove to be a must for all German edged weapon aficionados.

Hitler's Monsters Eric Kurlander, 2017-06-06 A dense and scholarly book about the relationship between the Nazi party and the occult reveals stranger than fiction truths on every page Daily Telegraph The Nazi fascination with the occult is legendary yet today it is often dismissed as Himmler's personal obsession or wildly overstated for its novelty Preposterous though it was however supernatural thinking was inextricable from the Nazi project The regime enlisted astrology and the paranormal paganism Indo Aryan mythology witchcraft miracle weapons and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion In this eye opening history Eric Kurlander reveals how the Third Reich's relationship to the supernatural was far from straightforward Even as popular occultism and superstition were intermittently rooted out suppressed and outlawed the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power shape propaganda and policy and pursue their dreams of racial utopia and empire Kurlander shows how swiftly irrational ideas can take hold even in an age before social media The Washington Post Deeply researched convincingly authenticated this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish The Spectator A trustworthy book on an extraordinary subject The Times A fascinating look at a little understood aspect of fascism Kirkus Reviews Kurlander provides a careful clear headed and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits National

Halbrook,2025-08-26 Based on secret documents from German archives diaries and newspapers of the time Gun Control in the Third Reich presents the definitive yet hidden history of how the Nazi regime made use of gun control to disarm and repress its enemies and consolidate power The countless books on the Third Reich and the Holocaust fail even to mention the laws restricting firearms ownership which rendered political opponents and Jews defenseless A skeptic could surmise that a better armed populace might have made no difference but the National Socialist regime certainly did not think so it ruthlessly suppressed firearm ownership by disfavored groups Gun Control in the Third Reich spans the two decades from the birth of the Weimar Republic in 1918 through Kristallnacht in 1938 The book then presents a panorama of pertinent events during World War II regarding the effects of the disarming policies And even though in the occupied countries the Nazis decreed the death penalty for possession of a firearm there developed instances of heroic armed resistance by Jews particularly the Warsaw ghetto uprising Nazi Plunder Kenneth D.
