African American Males and Education T. Elon Dancy II, M. Christopher Brown, 2012-10-01 African American Males in Education Researching the Convergence of Race and Identity addresses a number of research gaps This book emerges at a time when new social dynamics of race and other identities are shaping but also shaped by education Educational settings consistently perpetuate racial and other forms of privilege among students personnel and other participants in education For instance differential access to social networks

still visibly cluster by race continuing the work of systemic privilege by promoting outcome inequalities in education and society The issues defining the relationship between African American males and education remain complex Although there has been substantial discussion about the plight of African American male participants and personnel in education only modest attempts have been made to center analysis of identity and identity intersections in the discourse Additionally more attention to African American male teachers and faculty is needed in light of their unique cultural experiences in educational settings and expectations to mentor and or socialize other African Americans particularly males

Academically Gifted African American Male College Students Fred A. Bonner II, 2010-01-22 The first ever study of African American giftedness at the collegiate level focusing on two extraordinary case studies At a time when so many studies of African American students focus on the factors of failure Academically Gifted African American Male College Students fills a conspicuous void in the research literature on post secondary education by focusing on success Like no other work before it this remarkable study goes deep inside the experiences of academically gifted African American men who successfully navigate their way through rigorous college level programs At the heart of the unique and long overdue work are two real life stories of African American male students one at a Historically Black College and University HBCU and the other at a Traditionally White Institution TWI In presenting comparing and contrasting these two cases the book identifies a number of personal characteristics and institutional approaches driving their notable achievements The result is a guidebook both for gifted African American male students and for the institutions looking to strengthen their support for them particularly in science technology engineering and mathematics STEM disciplines

Culturally Affirming Literacy Practices for Urban Elementary Students Lakia M. Scott, Barbara Purdum-Cassidy, 2016-08-17 The nation s demographic of public schools are more ethnically racially and linguistically diverse than ever before Strauss 2014 However there are still educational policies and practices that call to question whether traditionally marginalized students receive an equitable education This is demonstrated in national achievement trends which highlight disproportionality ratings among minoritized student groups Also when examining school discipline policies expulsion ratings special education services and school choice movements all seem to handicap educational opportunity for low income Black and Brown students As American schools become more and more diverse it is imperative that the literacy practices used to teach young students of color reflect the nation s changing demographic This book provides practical insights guided by conceptual and contextual knowledge in understanding how to teach urban African American and Hispanic Latino students by discussing issues associated with critical pedagogies literacy and culturally appropriate instructional strategies that have demonstrated success for traditionally marginalized student populations This book examines culturally affirming literacy practices from three main components 1 scholarship 2 the field of practice and 3 teacher education models Each of these three are significant in understanding how to teach minoritized populations As such chapters have been organized into three main sections that address scholarship and

research trends in the field and implications for teacher education models all in order to advance the literacy achievement of African American and Hispanic Latino students

Rhonda Wells-Wilbon, Anthony Estreet, 2021-12-30 Addressing the social problems associated with trauma and mental health amongst African Americans in urban environments this book uses an African centered lens to critique the most common practice models and interventions currently employed by social workers in the field Divided into four parts and grounded in traditional African cultural values it argues that basic key values in a new clinical model for mental health diagnosis are A spiritual component Collective group approach Focus on wholeness Oneness with Nature Emphasis on truth justice balance harmony reciprocity righteousness and order Being free from racism sexism classism and other forms of oppression this African centered approach is crucial for working with people of African origin who experience daily trauma through adverse living conditions This book will be key reading on any practice and direct service course at both BSW and MSW level and will be a useful supplement on clinical courses as well as those aimed at working with diverse populations and those living in urban environments

School Choice and Diversity Janelle T. Scott,2005-08-20 This collection of essays will help readers to disentangle the complex relationship between school choice and student diversity in the post Brown era Presenting the views of the most prominent researchers of school choice reforms in the U S this book argues that the contexts under which school choice plans are adopted are actually responsible for shaping student diversity within schools Using sociological economic and political analysis the authors present studies of controlled and voluntary choice plans charter schools private school selection and their interaction with race social class gender and student disability **Same, Different, Equal** Rosemary C.

Salomone,2008-10-01 Although coeducation has been the norm within private and public schools since the 1970s single sex education has staged a comeback in recent years as a means of addressing the academic and social problems faced by some students Single sex education raises controversy on ideological grounds and in 1996 the Supreme Court struck down the all male admissions policy at the Virginia Military Institute in a decision that has cast a legal cloud over public initiatives In this timely book Rosemary Salomone offers a reasoned educational and legal argument supporting single sex education as an alternative to coeducation particularly in the case of disadvantaged minority students Salomone examines the history of

women's education and exclusion philosophical and psychological theories of sameness and difference findings on educational achievement and performance the research evidence on single sex schooling and the legal questions that have arisen Correcting many of the current misconceptions about single sex education she argues that it is a viable option and that the road to gender equality should be paved with diverse educational opportunities for all students regardless of race class or gender

The Brother Code T. Toward a BlackBoyCrit Pedagogy Nathaniel Bryan, 2021-11-04 Critical and necessary this book provides a window into the education and lives of Black boys in early childhood settings Drawing on Black Critical Theory and Black Male Studies and applying portraiture methodology Bryan explores experiences of Black boys and their male teachers in ways that affirm their humanity and acknowledge the consequences of existing in a white supremacist

system Bryan's nuanced and comprehensive portraits honor the voices of Black boys and their male teachers and counter the one-dimensional and essentialist perspectives that proliferate in our schools which Bryan identifies as anti-Black misogyny. Introducing BlackBoyCrit Pedagogy Bryan addresses the impact of socially constructed stereotypes and perceptions in the classroom and highlights the importance of educators who challenge such practices. In so doing, he provides a much-needed in-depth examination of pedagogies, literacies, and practices Black male teachers employ as well as a perceptive view of the academic and social landscapes Black boys must navigate.
