Alfred Adler

Education And The Individual:

Education for the Individual T. Robert Bassett, 1978 The outcomes of education cannot be predetermined holds for their nefarious as well as for their benficient employments for the individual as well as society Certain immediate results are attainable through training which should not be confused with education Schools should be maintained by a democratic society in the first instance as a service to the individual with whatever benefits to the society they may yield as salutary side effects Preface viii

The Education of the Individual Alfred Adler, 1969 The Education of the Individual, Etc Alfred ADLER (Associate Professor of Education at Brooklyn College.), 1958 *The Individual and Education* Frederick M. Raubinger, Harold G. Rowe, 1968 *Education and the Individual* Brenda Almond, 2021-06-23 First published in 1981

Education and the Individual presents a reasoned case for maintaining the maximum freedom of choice in education in those areas where the interests of the individual and the state conflict The book argues that ultimately the freedom to opt out of the education system altogether must be protected as well as the freedom to choose a religious education in a secular state or a secular education in a religious state and freedom from political indoctrination It analyses what is required of education in a liberal society and explores its implications for the wider international context of human rights It also promotes the basic rights of freedom of choice in education and wherever conflict is inevitable it argues for the issue to be settled in favour of the individual rather than the state Education and the Individual will appeal to those with an interest in the history of education the philosophy of education and the relationship between education and politics
