Education For Thinking:

Education for Thinking Deanna KUHN, 2009-06-30 Bringing insights from research in developmental psychology to pedagogy Kuhn argues that inquiry and argument should be at the center of a thinking curriculum a curriculum that makes sense to students as well as to teachers and develops the skills and values needed for lifelong learning

Education and Thinking in Continental Philosophy Itay Snir, 2020-09-28 This book draws on five philosophers from the continental tradition Theodor Adorno Hannah Arendt Gilles Deleuze Jacques Derrida and Jacques Rancière in order to think about thinking and offer new and surprising answers to the question How can we educate students to think creatively and critically Despite their differences all of these philosophers challenge the modern understanding of thinking and offer original radical perspectives on it In very different ways each rejects the modern approach to thinking as well as the reduction of proper thought to rationality situating thinking in sociohistorical reality and relating it to political action Thinking they argue is not a natural automatic activity and the need to think has become all the more important as political reality seems to exhibit less thinking or to even celebrate thoughtlessness Bringing these continental conceptions of thinking to bear on the urgent need to educate young people to think against the current this book makes a significant contribution to educational theory and political philosophy one that is particularly relevant in today's anti intellectual climate

Building Our Best Future Deanna Kuhn, 2017-09-15 Building Our Best Future by Deanna Kuhn author of Education for Thinking Harvard University Press offers a text written directly to middle and secondary students It engages them in a method of well documented effectiveness using peer dialog to develop verbal and written skills of argument and critical thinking Simultaneously it engages them in evidence based decision making regarding 44 topics about their personal futures the futures of their communities of their nation and their world Provided for each topic is a comprehensive body of factual knowledge in simple Q A format all with further sources A Teachers Edition providing further resources including assessment of student skill gains is complimentary with 10 or more student copies

Culture, Transnational Education and Thinking Niranjana Casinader, 2014-04-24 The notion of thinking skills as a key component of a 21st century school education is now firmly entrenched in educational policy and curriculum frameworks in many parts of the world However there has been relatively little questioning of the manner in which educational globalisation has facilitated this diffusion of thinking skills curriculum and pedagogy in a cultural context This book will help to redress such an imbalance in its critical assessment of the cross cultural validity of transplanting thinking skills programs from one educational system to another on an international scale Culture Transnational Education and Thinking provides an international comparative study of the intersection of three educational concepts culture education and thinking Drawing on case studies from Malaysia South Africa and Australia USA for the purposes of comparative analysis the book employs the context of an international school program in the teaching of thinking skills Future Problem Solving Program International The book explores the associations between Future Problem

Solving educators their cultural background and their approaches to thinking evaluating the relevance of transferring thinking skills programs derived in one cultural framework into another The book also discusses the wider implications of these cross cultural comparisons to curriculum and pedagogy within schools and higher education with a particular emphasis on the teaching of multicultural school based classes and cross cultural understandings in teacher education and professional development This book will be of relevance to academics and higher education students who have an interest in the fields of cross cultural and intercultural understanding comparative studies in education and theories and practices of cognition as well as the development of tertiary and secondary curricula and associated pedagogies that specifically acknowledge the cultural diversities of both teacher and learner
