P. Epskamp, 2006-10 The Theatre for Development TFD is a learning strategy in which theatre is used to encourage communities to express their own concerns and think about the causes of their problems and possible solutions This overview contributes to both the theory and practice of Theatre for Development The author contextualises it historically within the evolving range of development theories strategies and practices notably including the now widely accepted notion of participatory approaches to achieving social change *Education in the South*, 2000 **Global Development of Community Colleges, Technical Colleges, and Further Education Programs** Paul A.
