Learning How to Let It Go in the Shadow of the Belvedere James Louis Hagerty, 2023-06-23 Sometimes it becomes difficult for us to recognize the beauty of the forest in its full splendour and diverse grandeur even though it has always been right in front of us Our view becomes obscured by the thick opaque tangle of branches To overcome this universal challenge for us all we need to be able to adopt a new perspective This can come from meeting new people and considering their point of view or even by putting oneself in an entirely different time and place In doing so even the most stubborn and set in their ways can be jostled out of their slumber and comforting complacency The elements necessary for this process of self transformation are already in our souls for those who allow them to surface while for others who are more resistant a more literal journey can be exactly what is required to shake us loose from our preconceived notions
