It has been developed to provide a framework for school teams and professionals specializing in the education of students with hearing loss to use when assessing the unique needs of children who are deaf or hard of hearing. These assessments can be used as part of the evaluation process to determine eligibility as tools for developing specific goals and objectives or as a measure of pre and post instruction performance. Expected development in the expanded core knowledge and skills is also a significant consideration when determining the impact of the hearing loss on school performance and will therefore be integrated into the assessment process described.
