El Prado:

The Prado Francisco J. Sánchez Cantón, 1969 **The Prado** Museo del Prado, 2016 The Museo del Prado is the main Spanish national art museum located in central Madrid. It features one of the world's finest collections of European art based on the former Spanish Royal Collection and is unquestionably the best single collection of Spanish art. Founded as a museum of paintings and sculpture in 1819, it also contains important collections of other types of works. The Prado is one of the most visited sites in the world. The numerous works by Francisco de Goya, the single most extensively represented artist as well as by Diego Velázquez, El Greco, Titian, Peter Paul Rubens, and Hieronymus Bosch are some of the highlights of the collection. Comprehensively showcasing the museum's permanent collection, this magnificent book is the first of its kind to be published in association with the Prado, covering the collection from ancient sculpture to the nineteenth century. The book is arranged chronologically by the date of the artworks featured, creating a rich dialogue between artists from different schools working in the same period. There are sections looking in depth at specific painters: Velázquez, Titian, El Greco, and Bosch, and at the themes of still life, portraits, and religious paintings. The Prado Masterpieces can be read as a complete history of Western art as illustrated by the careful selection of highlights from the museum's collection. [Colombia](#) United States. The life of Francisco Goya (1746-1828) coincided with an age of transformation in Spanish history that brought upheavals in the country's politics and at the court which Goya served, changes in society, the devastation of the Iberian Peninsula in the war against Napoleon, and an ensuing period of political instability. In this revelatory biography, Janis Tomlinson draws on a wide range of documents, including letters, court papers, and a sketchbook used by Goya in the early years of his career, to provide a nuanced portrait of a complex and multifaceted painter and printmaker whose art is synonymous with compelling images of the people, events, and social revolution that defined his life and era. Tomlinson challenges the popular image of the artist as an isolated figure obsessed with darkness and death, showing how Goya's likeability and ambition contributed to his success at court and offering new perspectives on his youth, rich family life, extensive travels, and lifelong friendships. She explores the full breadth of his imagery, from scenes inspired by life in Madrid to visions of worlds without reason, from royal portraits to

the atrocities of war She sheds light on the artist s personal trials including the deaths of six children and the onset of deafness in middle age but also reconsiders the conventional interpretation of Goya s late years as a period of disillusion viewing them instead as years of liberated artistic invention most famously in the murals on the walls of his country house popularly known as the black paintings A monumental achievement Goya A Portrait of the Artist is the definitive biography of an artist whose faith in his art and his genius inspired paintings drawings prints and frescoes that continue to captivate challenge and surprise us two centuries later [Lonely Planet California's Best Trips](#) Lonely Planet,Sara Benson,2017-02-01 Lonely Planet The world s leading travel guide publisher Whether exploring your own backyard or somewhere new discover the freedom of the open road with Lonely Planet California s Best Trips Featuring 35 amazing road trips from 2 day escapes to 2 week adventures you can drive along the breezy wildlife rich Pacific Coast or stroll through ancient groves of Sequoia in Yosemite National all with your trusted travel companion Jump in the car turn up the tunes and hit the road Inside Lonely Planet California s Best Trips Lavish color and gorgeous photography throughout Itineraries and planning advice to pick the right tailored routes for your needs and interests Get around easily 80 easy to read full color route maps detailed directions Insider tips to get around like a local avoid trouble spots and be safe on the road local driving rules parking toll roads Essential info at your fingertips hours of operation phone numbers websites prices Honest reviews for all budgets eating sleeping sight seeing hidden gems that most guidebooks miss Useful features including Stretch Your Legs Detours Link Your Trip Covers Napa Valley Death Valley Disneyland Orange County Beaches and more eBook Features Best viewed on tablet devices and smartphones Downloadable PDF and offline maps prevent roaming and data charges Effortlessly navigate and jump between maps and reviews Add notes to personalise your guidebook experience Seamlessly flip between pages Bookmarks and speedy search capabilities get you to key pages in a flash Embedded links to recommendations websites Zoom in maps and images Inbuilt dictionary for quick referencing The Perfect Choice Lonely Planet California s Best Trips is perfect for exploring California in the classic American way by road trip About Lonely Planet Lonely Planet is a leading travel media company and the world s number one travel guidebook brand providing both inspiring and trustworthy information for every kind of traveler since 1973 Over the past four decades we ve printed over 145 million guidebooks and grown a dedicated passionate global community of travelers You ll also find our content online and in mobile apps video 14 languages nine international magazines armchair and lifestyle books ebooks and more Important Notice The digital edition of this book may not contain all of the images found in the physical edition [The Rough Guide to Colombia \(Travel Guide eBook\)](#) Daniel Jacobs,Rough Guides,Stephen Keeling,2018-10-01 The Rough Guide to Colombia Discover this exciting countrywith the most incisive and entertaining guidebook on the market Whether youplan to experience the buzz of reborn Medelln learn salsa in Cali or go diving in gorgeous Providencia The Rough Guide to Colombia will show you the ideal places to sleep eat drink shop and visit along the way Independent trusted reviews written with Rough Guides trademark blend of humour honesty and

Hitler's Shadow Empire Pierpaolo Barbieri, 2015-04-14 A revealing look at Nazi involvement in the Spanish Civil War their economic ambitions how it came to be and how they operated Pitting fascists and communists in a showdown for supremacy the Spanish Civil War has long been seen as a grim dress rehearsal for World War II Francisco Franco s Nationalists prevailed with German and Italian military assistance a clear instance it seemed of like minded regimes joining forces in the fight against global Bolshevism In *Hitler s Shadow Empire* Pierpaolo Barbieri revises this standard account of Axis intervention in the Spanish Civil War arguing that economic ambitions not ideology drove Hitler s Iberian intervention The Nazis hoped to establish an economic empire in Europe and in Spain they tested the tactics intended for future subject territories The Nazis provided Franco s Nationalists with planes armaments and tanks but behind this largesse was a Faustian bargain Through weapons and material support

Germany gradually absorbed Spain into an informal empire extending control over key Spanish resources in order to fuel its own burgeoning war industries This plan was only possible and profitable because of Hitler s economic czar Hjalmar Schacht a wizard of international finance His policies fostered the interwar German recovery and consolidated Hitler s dictatorship Though Schacht s economic strategy was eventually abandoned in favor of a very different conception of racial empire Barbieri argues it was in many ways a more effective strategic option for the Third Reich Deepening our understanding of the Spanish Civil War by placing it in the context of Nazi imperial ambitions Hitler s Shadow Empire illuminates a fratricidal tragedy that still reverberates in Spanish life as well as the world war it heralded Praise for Hitler s Shadow Empire A fascinating beautifully written account of a plan for the German economic domination of Europe that was pushed in the 1930s by the Nazis but above all by non Nazi and more traditionally oriented German economic bureaucrats Barbieri makes us think again about the relationship between economics and racial policies in the making of Nazi aggression Harold James author of Making the European Monetary Union Hitler s Shadow Empire recasts our understanding of the German and Italian interventions in the Spanish Civil War In this brilliant debut Barbieri shows that informal imperialism played a more important part than fascist ideology in the way that Berlin looked at the conflict Barbieri also has a keen ear for the continuing echoes of the Civil War for Spain and indeed for Europe today Niall Ferguson author of The Ascent of Money
