Deco Body, Deco City Ageeth Sluis,2016 In the turbulent decades following the Mexican Revolution Mexico City saw a drastic influx of female migrants seeking escape and protection from the ravages of war in the countryside While some settled in slums and tenements where the informal economy often provided the only means of survival the revolution in the absence of men also prompted women to take up traditionally male roles created new jobs in the public sphere open to women and carved out new social spaces in which women could exercise agency In Deco Body Deco City Ageeth Sluis explores the effects of changing gender norms on the formation of urban space in Mexico City by linking aesthetic and architectural discourses to political and social developments Through an analysis of the relationship between female migration to the city and gender performances on and off the stage the book shows how a new transnational ideal female physique informed the physical shape of the city By bridging the gap between indigenismo pride in Mexico s indigenous heritage and mestizaje privileging the ideal of race mixing this new female deco body paved the way for mestizo modernity This cultural history enriches our understanding of Mexico s postrevolutionary decades and brings together social gender theater and architectural history to demonstrate how changing gender norms formed the basis of a new urban modernity

momentos de ocio y de descanso o convivimos con amigos parientes y colegas Los historiadores reconocemos la necesidad de situar los acontecimientos que reseamos en el sitio que les corresponde pero tenemos el compromiso de definirlo por algo más que unos límites geográficos ya que un mismo contorno territorial puede acoger según el momento y la voluntad de sus ocupantes una escuela o una cárcel un lugar de culto o un burdel un taller o un arsenal Pero además hay pocas en que los seres humanos se sienten más o menos cómodos en determinados espacios buscan identificarse con el que corresponde a su ámbito cultural y si no lo encuentran lo crean Cuando hablamos de cultura nos referimos a todo aquello que es expresión de la conducta humana Por lo tanto los espacios sociales son creados o modificados por individuos y comunidades con su inseparable carga de creencias y costumbres de tal modo que se puedan identificar los valores que predominan las aspiraciones de quienes los habitan las rutinas de comunicación y los derroteros de superación o retroceso en las relaciones de convivencia Por eso más que de territorios en este libro hablamos de espacios culturales sociales y afectivos
