Eldoret An African Poetics Of Technology:

Eldoret Richard M. Swiderski, 1995 *Eldoret An African Poetics of Technology* is both a history and an anthropology of technology. As author Swiderski explains in the introduction, Poetics derived from the Greek verb *poiein* meaning to make, do, has as much to do with technology (material making) as with poetry (verbal making) and refers to the ongoing act of assembly that can look like the passage of time or the eternity of culture and is actually both. It is an African poetics because the act of assembly is motivated by African conditions and executed through the genius and strength of the African people. The resulting ethnography, illustrated with thirty-two of the author's delightful line drawings, is unconventional in design and brilliantly executed. It will be of considerable interest and value not only to cultural anthropologists but to many in geography, economics, business, technology studies, and allied fields. Drawing on his personal experience in living in Eldoret, Swiderski creates an impressionistic sketch of the hybridization of imported and indigenous technologies in this community and of the varied patterns that are created as the residents of the town and its hinterland employ these technologies in everyday life. The poetic focus on technology is a creative and effective device for exploring many wider issues: entrepreneurship, resource management, wealth, poverty, structural unemployment, gender relations, ethnic and class conflict, and other problems of life and development in Third World communities.

The Archaeology and Anthropology of Landscape Robert Layton, Peter Ucko, 2003-09-02 *The Archaeology and Anthropology of Landscape* contributes to the development of theory in archaeology and anthropology, provides new and varied case studies of landscape and environment from five continents, and raises important policy issues concerning development and the management of heritage.

Negotiating Social Space Patrick O. Alila, Poul O. Pedersen, 2001 Small and micro enterprises have been an important theme in development thinking since the 1950s, yet for a variety of reasons East African governments and administrations have been sceptical about their role in their own countries' development. While many constraints have been lifted by the more liberal policies of the 1990s, many micro entrepreneurs and their labourers, primarily women, are still fighting for an enlarged social space. The papers in this book describe these strategies of negotiation between rural micro enterprises and the new liberalised rural economy.

Visual Sociology Douglas Harper, 2012-12-12 Visual sociology has been part of the sociological vocabulary since the 1970s, but until now there has not been a comprehensive text that introduces this area. Written by one of the founding fathers in the field, Visual Sociology explores how the world that is seen, photographed, drawn, or otherwise represented visually is different from the world that is represented through words and numbers. Doug Harper's exceptional photography and engaging, lively writing style will introduce visual sociology as embodied observation, visual sociology as semiotics, visual sociology as an approach to data, empirical narrative, phenomenological and reflexive visual sociology as an aspect of photo documentary, visual sociology and multimedia. This definitive textbook is made up of eleven chapters on the key topics in visual sociology. With teaching and learning guidance as well as clear, accessible explanations of current thinking in the field, this book will be

an invaluable resource to all those with an interest in visual sociology research methods cultural geography cultural theory or visual anthropology
