**Elections & Political** Carol Smalley,Perfection Learning Corporation,2004-09-01 This book looks at the political parties the democratic process and elections in the United States **Applying the Lessons of UK National Politics to Everyday Office Life** Richard Wills,2019-03-12 This book engagingly presents an intriguing account of many of the principles of UK government politics and how these have an important bearing on everyday office life as experienced by the working population Here is a fascinating account of the findings of two former Cabinet ministers Lords Blunkett and Baker who were interviewed by the author Oral testimony allows the reader to learn about the perspectives of political power brokers and provides data and insight not always apparent or revealed from historical records and archive material The overriding aim is to analyse the nature of politicking in central government and to apply the techniques and lessons of

national politics to everyday office life The book offers a political framework giving behavioural pointers to assist those who face challenging circumstances that could impinge on their well being and business efficiency in the workplace A back to basics methodology is advised touching on a range of techniques including for example that gossip is an effective way of getting back at someone This touches upon Blunketts assertion that Michael Gove MP is a zealot and a politician having an ideological obsession Applying the Lessons refers moreover to cases calling for bargaining and negotiation also a part of the life of the whips in Parliament and an essential tool for office business As a seasoned historian and political analyst Richard Willis revealingly unravels the nature of political power and control and shows how Margaret Thatcher and Tony Blair initially supposedly gave Baker and Blunkett considerable scope in introducing reform He goes on to explain how the two peers give their critique on policy making against a background which is of definite benefit to office managers and supervisors executive assistants PAs administrators and administrative administration assistants Bulletin of Information, Evening and Extension Sessions Hunter College. **Method and Meaning in Polls and Surveys** Howard Schuman,2008 Howard Schuman is one of the premier scholars of social surveys His expertise concerns the way questions about attitudes and beliefs are worded and the effects questions have on the answers people give However Method and Meaning in Polls and Surveys is less about the substance of wording effects and more about approaches to interpreting the respondent e tm s world and how surveys can make that world understandable ethough often in ways not anticipated by the researcher Schuman examines the question answer process that is basic to polls and surveys as it is in so much of life His concern is with the nature of questioning itself with issues of validity and bias and with the scope and limitations of meaning sought through polls and surveys Writing with both wisdom

and humor Schuman considers the issues both at a theoretical level bringing in ideas from other social sciences and empirically with substantive research of his own and others The book will be of interest to social scientists to survey researchers in academia and business and to all those concerned with the pervasive influence of polls in society

**Freedom from Fear** Alan S. Kahan,2023-08-22 A new history of liberalism which argues that liberalism has been predicated on definite morality and should be viewed as an attempt to encompass both fear and hope Liberalism argues Alan Kahan is the search for a society in which people need not be afraid Freedom from fear is the most basic freedom If we are afraid we are not free These insights found in Montesquieu and Judith Shklar are the foundation of liberalism What liberals fear has changed over time revolution reaction totalitarianism religious fanaticism poverty and now populism but the great majority of liberal thinkers have relied on three pillars to ward off their fears and to limit the concentrated power that causes fear freedom markets and morals or to put it another way politics economics and religion or morality Most liberal thinkers emphasize one or two pillars more than another but it is typical of liberalism down to the Second World War to rely on all three although there were always minority voices who preferred to stand on only one leg After WWII thin procedural market liberals who wanted to strip any moral or religious basis or purpose from liberalism dominated thick liberal moralists who thought liberalism needed a moral basis and or goal It is the political contention of this book that liberalism is most convincing as program language and social analysis when it relies on all three pillars and that the relative weakness of liberalism at the end of the twentieth century had much to do with neglect of the moral pillar of liberalism Its historical contention is that for much of the past two centuries it did rely on all three pillars But Kahan also argues that liberalism is not only a party of fear It is also a party of hope or the party of progress Many of the contradictions typical of liberalism derive from the seemingly contradictory effort to encompass both hope and fear If in case of conflict fear often trumps hope for liberals loss aversion applies in politics as much as in economics and utopia is subject to indefinite postponement progress in personal autonomy and development has always been at the heart of liberalism Liberals typically support their hopes on the same three pillars of freedom markets and morals which they use to ward off their fears Nevertheless in one respect those historians and political theorists who identify liberalism with laissez faire economics are not wrong It is characteristic of liberalism then that it bases its hopes not on the state but on civil society which for liberals is the common source of a free politics a free market and of morals Alan S Kahan is Professor of History at the Universit de Versailles His previous books include Tocqueville Democracy and Religion Checks and Balances for Democratic Souls Oxford 2015 Alexis de Tocqueville Continuum Books and Mind vs Money The War Between Intellectuals and Capitalism Transaction Publishing 2010
