## **Electoral Politics:**

**Money and Electoral Politics** Ron Johnston, Charles Pattie, 2014-05-27 Political parties are crucial to British democracy providing the foundations for mobilising voters. Their constituency branches are key links between voters and Parliamentary candidates and their activities require two vital resources: people and money. Much has been written on the decline of party membership but far less on money. In this much needed new book Ron Johnston and Charles Pattie use the latest research and hitherto unpublished material to explore financial differences across the UK's three main parties in the four years leading up to the 2010 General Election. They look at how much local parties raise for election campaigns and find that the more money candidates spend the better their performance. Analyses of their annual accounts however show that many local parties are unable to raise all of the money that they are entitled to spend on such campaigns. This reveals an unhealthy picture of grassroots party organisation in which the capacity to engage effectively with many voters is concentrated in a relatively small number of constituencies and is likely to remain so. This timely and essential book will make a major contribution to the literature on British elections and parties especially to continuing debates regarding party funding. It will make important reading for academics, students, politicians, civil servants and others interested in this topic. **Ethnicity**

**and Electoral Politics** Jóhanna Kristín Birnir, 2006-12-25 This book asks what distinguishes peaceful plural democracies from violent ones and what distinguishes violent ethnic groups from peaceful ones within the same democracy. Contrary to conventional wisdom it suggests that ethnic groups and their political demands are not inherently intransigent and that violence is not a necessary corollary of ethnic politics. The book posits that ethnic identity serves as a stable but flexible information shortcut for political choices influencing party formation and development in new and maturing democracies. It furthermore argues that political intransigence and violence expressed by some ethnic groups stem from circumstances exogenous to ethnic affiliations. In particular, absolute restrictions on ethnic access to the executive produce conditions under which ethnic group incentive to participate in peaceful electoral politics is eliminated. A number of case studies and statistical analysis of all electoral democracies since 1945 are used to test and support the formal argument. Electoral Politics in

India Suhas Palshikar, Sanjay Kumar, Sanjay Lodha, 2017-02-03 The general elections held in 2014 in India, the largest democracy in the world to elect the 16th Lok Sabha brought in dramatic results. This important volume explains not only the startling victory of the Bharatiya Janata Party (BJP) but also the equally surprising downfall of the Congress Party. It examines not why BJP won and the Congress lost but why the scale of BJP's victory and that of Congress's defeat was so very different from the results in the years 2004 and 2009. The volume presents an in-depth analysis of the electoral results state-wise, studies the factors leading up to these outcomes and the road India has travelled since then. With contributions from India's leading political scientists, psephologists, sociologists and political commentators, this book will be of great interest to scholars and researchers of Indian politics, democracy and political parties as well as South Asian studies. Issues in Ghana's Electoral Politics Ninsin, Kwame A., 2017-05-05 Ghana attained independence in 1957 From 1992 when a new constitution came into force and established a new democratic framework for governing the country elections have been organized every four years to choose the governing elites The

essays in this volume are about those elections because elections give meaning to the role of citizens in democratic governance. The chapters depart from the study of formal structures by which the electorate choose their representatives. They evaluate the institutional forms that representation take in the Ghanaian context and study elections outside the specific institutional forms that according to democratic theory are necessary for arriving at the nature of the relationships that are formed between the voters and their representatives and the nature and quality of their contribution to the democratic process.

*Electoral Politics of Grassroots Democracy* M.R. Biju, M.R.B. Anantha Padmanabha, 2021-01-01. On the Gandhi Jayanti Day of 2020 the state of Kerala has completed two and a half decades of participatory planning and decentralized governance. During its long and fruitful journey the new generation Panchayati Raj Institutions and other self governing institutions had travelled a long way with its remarkable achievements in participatory planning and governance process which had evoked genuine interest from the theoreticians and practitioners of decentralization. When the 25th anniversary was approaching the authors felt that it would be a pleasant experience to highlight the strategies, strength and weaknesses of people's participation in the decentralization process and to draw lessons for the future. Certainly, quarter a century is an enough period to assess the achievements, to evaluate the lost opportunities as well as the challenges ahead. Keeping this in background, an attempt has been made in this handy volume to present a detailed picture of the electoral history of grassroots democracy in Kerala from 1953 to 2015.

**Electoral Politics in the Middle East** Jacob M. Landau,Ergun Özbudun, Frank Tachau,2015-07-24 Comparative political study of the Middle East got off to a late start Unlike any previous studies in comparative politics this book first published in 1980 represents an important methodological advance in that it proceeds by themes rather than by countries and uniquely focuses on three major aspects of electoral politics in three contemporary Middle Eastern states The three countries Turkey Lebanon and Israel are chosen because they are the only Middle Eastern countries with a tradition of free elections On the other hand they also display certain characteristics found in other non competitive Middle Eastern political systems such as the role and prominence of religion The study is based on extensive original research and presents the first comparative treatment of electoral issues voting behaviour and parliamentary elites emphasising the context of rapid socio economic change a theme particularly pertinent to those countries with their tradition of free elections The variety of political behaviour within the countries concerned coupled with the prevailing complexities resulting from disparities in language and cultural inheritance makes the comparative approach particularly revealing The attitudes and behaviour of the voters can be seen to be at least as important as the laws and mechanisms involved
