Transaction (ITT) Models as an Aid to the Process of Harmonization United Nations. Economic and Social Commission for Asia and the Pacific,1999 Customers in today s competitive world market are constantly demanding for their products to be delivered faster and cheaper For developing countries to optimize the benefit from liberalised global trade there is a real need to encourage the use of methodologies that are designed to identify and eradicate the root causes of delay and cost A framework and discipline for approaching this issue is provided by International Trade Transaction ITT Modelling ITT

modelling defines areas where further facilitation efforts can be applied and it assists in the realistic restructuring of trade procedures This study presents four country ITT models for the clearance of express consignments These models were prepared for India Malaysia the Philippines and Sri Lanka and were compared to best practice i e the clearance of express consignments guidelines of the World Customs Organization This comparisons suggested recommendations which were incorporated into these studies The hope is that this study will act as introduction to the use of ITT modeling to re engineer trade procedures in enhancing trade efficiencies among the countries in the Asia and Pacific Region

Economic and Social Survey of Asia and the Pacific United Nations Publications,2016 The Survey 2014 will examine the regions challenges to support its economic growth and to promote inclusive and sustainable development Part I of the report will focus on the regions outlook as it contends with the ongoing global recovery and assesses the regions policy response to remaining and emerging vulnerabilities A special theme is domestic resource mobilization in Asia Pacific which will explore the challenges on strengthening tax revenues Part II of the report discusses strategic approaches to strengthen regional connectivity to achieve shared prosperity
