Global

Perspectives on E-Commerce Taxation Law Subhajit Basu, 2007 This book considers the implications for the domestic and international tax systems of the growth of e commerce It covers a wide variety of activities from discussion of the principles governing direct and indirect taxation to explanation of the implementation and use of e commerce on the part of businesses as well as the application of existing tax principles in this field

E-Commerce and Intelligent Methods

Javier Segovia, Piotr S. Szczepaniak, Marian Niedzwiedzinski, 2002-08-06 This book covers significant recent developments in the field of Intelligent Methods applied to eCommerce The Intelligent Methods considered are mainly Soft Computing Methods that include fuzzy sets rough sets neural networks evolutionary computations probabilistic and evidential reasoning multivalued logic and related fields There is not doubt about the relevance of eCommerce in our daily environments and in the work carried out at many research centers throughout the world The application of AI to Commerce is growing as fast as the computers and networks are being integrated in all business and commerce aspects We felt that it was time to sit down

and see how was the impact into that field of low level AI i.e softcomputing We found many scattered contributions disseminated in conferences workshops journal books or even technical reports but nothing like a common framework that could serve as a basis for further research comparison or even prototyping for a direct transfer to the industry We felt then the need to set up a reference point a book like this We planned this book as a recompilation of the newest developments of researchers who already made some contribution into the field The authors were selected based on the originality and quality of their work and its relevance to the field Authors came from prestigious universities and research centers with different backgrounds

The Whole Process of E-commerce Security Management System Ronggang Zhang,Lijuan Fang,Xiaoping He,Chuan Wei,2023-02-03 This book systematically and integrally introduces the new security management theories and methods in the e commerce environment Based on the perspective of dynamic governance of the whole process starting from the theoretical framework this book analyzes the gap between the current situation and requirements of security management defines its nature function object and system and designs and constructs the whole process security management organization and operation system of e commerce It focuses on the core and most prominent risk control links i.e security impact factors in e commerce security including e commerce information and network security risk e commerce transaction risk e commerce credit risk e commerce personnel risk etc Then the tools and methods for identifying and controlling various risks are described in detail at the same time management decision making and coordination are integrated into the risk management Finally a closed loop of self optimization is established by a continuous optimization evolution path of e commerce security management
