Ba,2009-03-26 This book seeks to explain two core paradoxes associated with the Association of Southeast Asian Nations ASEAN How have diverse states hung together and stabilized relations in the face of competing interests divergent preferences and arguably weak cooperation How has a group of lesser self identified Southeast Asian powers gone beyond its original regional purview to shape the form and content of Asian Pacific and East Asian regionalisms According to Alice Ba the answers lie in ASEAN s founding arguments arguments that were premised on an assumed regional disunity She demonstrates how these arguments draw critical causal connections that make Southeast Asian regionalism a necessary response to problems give rise to its defining informality and consensus seeking process and also constrain ASEAN s regionalism Tracing debates about ASEAN s intra and extra regional relations over four decades she argues for a process driven view of cooperation sheds light on intervening processes of argument and

debate and highlights interacting material ideational and social forces in the construction of regions and regionalisms

The North Pacific Triangle Michael G. Fry, John J. Kirton, Mitsuru Kurosawa, 1998-01-01 A collection of essays written by scholars and policymakers from the countries involved explores the evolving alliance among Canada Japan and the United States The book examines the three market oriented democracies in their changing roles toward each other and show how they have moved beyond their separate special bilateral relationships into a dynamic three way engagement Chinese Regionalism in Asia Tiang Boon Hoo, Jared Morgan McKinney, 2022-07-29 With globalization on the wane in a world fractured by growing great power competition Hoo and McKinney argue that regionalism is likely to re emerge as a focal area of significance and interest in the coming years In Asia how regionalism evolves is inescapably linked to China's part in this story Hoo McKinney and their contributors will help readers better understand regionalism as it is approached conceived and practiced by China Looking past the conventional attention on the Belt Road Initiative the contributors examine the evolving perspectives on regionalism within China the forms which this regionalism has taken and the implications for the strategic order in Asia This includes a focus on newer architecture such as the Regional Comprehensive Economic Partnership RCEP and the Asian Infrastructure Investment Bank AIIB lesser known mechanisms such as the Conference on Interaction and Confidence Building Measures in Asia CICA and the Lancang Mekong Cooperation LMC and more traditional ones such as the Shanghai Cooperation Organization SCO A valuable resource for scholars and students of China's foreign relations and of Asian regionalism and strategic order *The U.S. and the Two Koreas* Tong Whan Park, 1998 Presents revised and updated papers from a March 1997 conference held at Northwestern University in Evanston Illinois Papers investigate the new relationships emerging among Washington Seoul and Pyongyang in which political military and economic variables interact in a new way Subjects include South Korea's nuclear option US North Korea economic relations US public opinion of the two Koreas and Japan and China's responses to changing developments in Korea Annotation copyrighted by Book News Inc Portland OR **Why Russian Policy is Failing in Asia** Stephen Blank, 1997 Since its inception as a state Russia has been both a European and an Asian power Although Russia today as was true during much of its history is torn by an identity crisis over where it belongs its elites have never renounced Russia's vital interests in Asia and the belief that it should be recognized as a great power there However that belief and Moscow's ability to sustain it are now under threat due as Dr Stephen Blank's thorough analysis informs us to the ongoing failures of Russian policymakers to come to grips with changed Russian and Asian realities At the same time this aspect of Russian policy has been neglected in American assessments of Russia This is a serious shortcoming because in Dr Blank's view Russia's Asian policies viewed in their full breadth are important signs of present and future trends concerning its behavior at home and in the wider world Those policies are also significant as Asia's importance in world affairs rises We ignore the threatening situation facing Russia and Moscow's failure to adjust to those threats only at our own peril The growing concern over Russian arms transfers to China a subject

addressed in the study is only one sign of unexpected negative trends that might work against U S interests if we continue to neglect Asian aspects of Russia s global behavior and policy      Future survey annual : a guide to the recent literature of trends, forecasts, and policy proposals. 16.1996 Michael Marien,1996      The Political Economy of New Regionalisms in the Pacific Rim José Briceño-Ruiz,Philippe De Lombaerde,2019-08-28 Combining an analysis of regionalism from a systemic view with a domestic political economy analysis this book sheds light on the new dynamics and emerging configurations of regionalisms and interregionalisms in the post Trans Pacific Partnership TPP Donald Trump s presidency has transformed trans Pacific economic and political relations contrasting sharply with President Obama s pivot to Asia strategy Unilateralism and bilateralism have returned to the center stage at the cost of regionalism interregionalism and multilateralism Understanding these new dynamics requires closer examination of the underlying domestic political economies Examining ten country case studies of multi actor agency at the national level expert contributors argue that trans Pacific relations should not only be explained in terms of the behavior of the major powers but that medium powers and even small countries can exert influence and occupy strategic nodes and contribute to shaping a new international relations network Their findings will be of interest to scholars of international relations international political economy regionalism and international economics
