

FIVE CROWNS[®]

INSTRUCTIONS

Français, Deutsch, Español @ www.setgame.com

AGES: 8 to adult

PLAYERS: 2 to 7

OBJECT: To obtain the lowest number of points after playing all eleven hands of the game.

THE DECK: The game consists of two 58-card decks. Each deck contains five suits: stars ★, hearts ♥, clubs ♣, spades ♠, and diamonds ♦. Each suit has eleven cards: 3 through 10, a Jack, Queen and King. The game contains six Jokers.

THE DEAL: Before each hand is dealt, all the cards (both decks) are shuffled together. In the first hand of the game, three cards are dealt, one at a time in a clockwise direction starting with the person to the dealers left. In each following hand, the amount of cards dealt increases by one; thus, the second hand has four cards, the third hand has five cards, etc. In the last hand of the game each player has thirteen cards. After each deal, the remaining cards are placed in the center as a draw pile, and the top card is turned over to start the discard pile.

CARD VALUES: Each number card is worth its face value, the Jacks are 11 points, Queens are 12, Kings are 13, Jokers are 50, and the current wild card is 20 points. The wild card changes from hand to hand. For each hand, it is the card which is equal to the number of cards dealt in the hand. Thus, when three cards are dealt, the 3s are wild, when four cards are dealt, the 4s are wild, and so on until the last hand when the Kings are wild. Jokers are always wild.

RUNS: A run consists of a sequence of three or more cards of the same suit. I.e., 5♣, 6♣, 7♣, or 9★, 10★, J★, Q★. Any card in a run can be replaced by any wild card or Joker. For example, when 7s are wild, a run could be made from 9♠, 7♣, J★, or 6♦, 7★, 7★, 9♠. You can have as many wild cards or Jokers in a run as you wish (and they may be adjacent to each other).

BOOKS: A book consists of three or more cards of the same value regardless of suit. I.e., 8♣, 8★, 8♠, or K♣, K★, K♥, K♦. Any card in a book can be replaced by any wild card or Joker. For example, if 8s are wild, then a book could be 8♠, Q♣, Q★. You can have as many wild cards or Jokers in a book as you wish (and they may be adjacent to each other).

GOING OUT: After drawing from the deck or picking up the top card from the discard pile, if a player is able to arrange all the cards in his/her hand into books and/or runs with one card remaining, he/she lays the cards down and discards the one card to go out. The discard can be a card that could have been played on the cards laid down.

THE PLAY: The player to the dealer's left goes first, and play continues clockwise. Each turn starts with either drawing a card from the deck or picking up the top card from the discard pile. The turn is completed by discarding one card. A player can only lay down his/her books and/or runs when going out or, in turn, after another player has gone out. (See GOING OUT)

When a player is able to go out, the remaining players each have one last turn. Each remaining player, in turn, will either draw from the deck or pick up the top discard. The player will then lay down all his/her books and/or runs, discard one card, and count the cards remaining in his/her hand as points against him/her. One can not play on another player's books or runs. The value of the cards on the table does not matter, only cards remaining unused in the hand are counted. The scorekeeper records the points and keeps a running tally.

Eden's Bridge David B. Doty, 2012-01-01 Eden's Bridge The Marketplace in Creation and Mission explores a biblically based theology of the marketplace implicit in the creation narrative of Genesis 1-2. The thesis validates the calling and ministry of all marketplace Christians. David Doty invites readers to rethink and redirect the purposes of vocation, trade, and profit toward the purposes of God's Kingdom as they were revealed in the beginning and are to be restored in Christ's reign. This book is eye-opening and inviting as it explores how God is moving to reclaim the marketplace for His Kingdom and His redeeming purposes for the world of commerce. The marketplace holds untold potential if business is conducted according to God's plan: poverty can be eradicated, abundant living can be shared among all people, and shalom can prevail. Eden's Bridge offers hope for recovering from the recent collapse of the global economic system by envisioning a new view of how wealth is made and how the marketplace is yet to serve God's purposes in His mission to the world. **FutureWork** Tom Payne, 1996

Proceedings of the 2nd International Conference on Culture, Design and Social Development (CDSD 2022) Mohd Fauzi bin Sedon M. Dom, Peter Thomas Zabielskis, Xudong Liu, Xiao Liu, 2023-03-02 This is an open access book. Culture is the spiritual activity and product of human society relative to economy and politics. The traditional concept of human beings believes that culture is a social phenomenon, a product created by human beings for a long time, and at the same time a historical phenomenon which is the accumulation of human society and history. The technical, economical, and cultural nature of art design determines that only with high social and economic development can art and culture flourish. Art design is the product of the combination of art and technology. Art design is also a kind of productivity which promotes the development of social economy. As a driving factor for social and economic development, design art will also better serve the social economy with its own more perfect operating system. The 2nd International Conference on Culture Design and Social Development CDSD 2022 was held in Nanjing from December 2 to 4, 2022. The purpose of the conference is to provide an international platform for experts, scholars, engineers, and technicians and technical R & D personnel engaged in related fields such as culture design and social development to share scientific research results, broaden research ideas, collide with new ideas, and strengthen academic research and to explore the key challenges and research directions faced by the development of this field and promote the industrialization cooperation of academic achievements. Experts, scholars, business people, and other relevant personnel from universities and research institutions at home and abroad are cordially invited to attend and exchange.

Game Feel Steve Swink, 2008-10-13 Game Feel exposes feel as a hidden language in game design that no one has fully articulated yet. The language could be compared to the building blocks of music: time signatures, chord progressions, verse, no matter the instruments, style, or time period, these building blocks come into play.
