Gabon Marc Aicardi De Saint-Paul, 2025-05-30 First published in 1987 and in English in 1989 Gabon provides an essential introduction to the geography history sociology economics and politics of Gabon in considerable detail It assesses Gabon's achievement the initiation of a national minimum wage of a campaign for women's rights of an advanced health and education policy and the political and economic dangers it still faces The smooth transition of Francophone Africa from colonies to republics was achieved largely because both sides benefitted In retrospect as Africa continues to be plagued by drought disease and poverty the advantages may appear to have been one sided Gabon is one of the few countries to have escaped the African poverty trap It's rapid emergence as an important oil producer and its stable independent political stance have made it an African success story Gabon incorporated and adapted much of the colonial administrative structure into its own republican constitution and began to redeploy its resources early on both these factors have allowed President Bongo to steer his country through the oil crises of the 70s and 80s This comprehensive volume is an important historical reference work for scholars and researchers of African Studies and African politics **The Report: Gabon 2013** Oxford Business Group, 2013-10-07 In recent years the country has sought to accelerate economic diversification emphasising growth in its industrial agricultural and service sectors The second biggest economy of the Economic and Monetary Community of Central Africa which the country is chairing in 2013 Gabon has a population of 1.6m according to the most recent data available from the World Bank The country benefits from a wide base of natural resources including large mineral deposits and timber as well as arable land all of which have helped feed its export revenues and boost headline indicators However it is the oil and gas sector that has been the dominant sector with the country's onshore and offshore blocks making it the fifth largest producer on the continent Production has been maturing recently prompting the search to shift to deep offshore blocks but also encouraging greater diversification through the government's Gabon Emergent strategy which looks to channel capital and activity into key sectors such as tourism and manufacturing **The Report: Gabon 2012**, 2012 *Introduction to Gabon* Gilad James, PhD, Gabon is a small country located in Central Africa bordered by Cameroon to the north Equatorial Guinea to the northwest and the Republic of Congo to the east and south The country has a land area of 267 667 square kilometers with a population of approximately 2.2 million people The capital city Libreville is situated on the coast and is the largest city in the country Gabon's economy is heavily dependent on oil production which accounts for approximately 80% of the country's export revenue However the government has made efforts in recent years to diversify the economy by encouraging investment in other sectors such as transportation telecommunications and tourism Additionally Gabon is home to a significant portion of the Congo Basin rainforest and has been recognized for its efforts to conserve and protect its natural resources Despite challenges such as poverty and political instability Gabon remains an important player in the region and has significant potential for economic growth and development in the future **The**

Report: Gabon 2014 Oxford Business Group,2014-09-30 With just 1 63m people Gabon is the second smallest member of the six country Central African Economic and Monetary Community in terms of population after Equatorial Guinea However the country s well developed hydrocarbons sector has made Gabon the second largest economy in the sub region The economy of Gabon has largely developed on the back of the country s substantial oil and gas resources however declining production levels are leading the government to pursue a strategy of economic diversification While efforts to encourage new investment and offshore oil exploration may yet yield results the development of other industries including forestry and mining is being encouraged Meanwhile like many African countries Gabon is working to ensure that a larger percentage of natural resource wealth is channelled into the national economy
