Eleonora Duse and Michel Fokine Encyclopedia of Literary Translation Into English: A-L O. Classe, 2000 The Fishing Net and the Spider Web Claudio Fogu, 2020-11-23 This book explores the role of Mediterranean imaginaries in one of the preeminent tropes of Italian history the formation or making of Italians While previous scholarship on the construction of Italian identity has often focused too narrowly on the territorial notion of the nation state and over identified Italy with its capital Rome this book highlights the importance of the Mediterranean Sea to the development of Italian collective imaginaries From this perspective this book re interprets key historical processes and actors in the history of modern Italy and thereby challenges mainstream interpretations of Italian collective identity as weak or incomplete Ultimately it argues that Mediterranean imaginaries acted as counterweights to the solidification of a national Italian identity and still constitute alternative but equally viable modes of collective belonging Transnational Modernity and the Italian Reinvention of Walt Whitman, 1870-1945 Caterina Bernardini, 2021-07-15 Caterina Bernardini gauges the effects that Walt Whitman's poetry had in Italy from 1870 to 1945 the reactions it provoked the aesthetic and political agendas it came to sponsor and the creative responses it facilitated Particular attention is given to women writers and noncanonical writers often excluded from previous discussions in this area of study Bernardini also investigates the contexts and causes of Whitman's success abroad through the lives backgrounds beliefs and imaginations of the people who encountered his work Studying Whitman's reception from a transnational perspective shows how many countries were simultaneously carving out a new modernity in literature and culture In this sense Bernardini not only shows the interconnectedness of various international agents in understanding and contributing to the spread of Whitman's work but more largely illustrates a constellation of similar pre modernist and modernist sensibilities This stands in contrast to the notion of sudden innovation modernity was not easy to achieve and it did not imply a complete refusal of tradition Instead a continuous and fruitful negotiation between tradition and innovation not a sudden break with the literary past is at the very heart of the Italian and transnational reception of Whitman The book is grounded in archival studies and the examination of primary documents of noteworthy discovery **Duse on Tour** Guido Maurice Barrès Trevor Field.1982 Noccioli, 1982 America in Italian Culture Guido Bonsaver, 2024-02-10 When Italy unified in 1861 America was emerging as a world power and advances in communication allowed Italians a view of American life to which they could aspire America in Italian Culture traces this huge cultural shift looking at how US fiction comics music and film came to dominate Italian culture even as the countries went to war **Choice** .1992 **Abel Gance** and the End of Silent Cinema Paul Cuff, 2016-11-10 This book explores the creation and destruction of Abel Gance s most ambitious film project and seeks to explain why his meteoric career was so nearly extinguished at the end of silent cinema By 1929 Gance was France's most famous director Acclaimed for his technical innovation and visual imagination he was also admonished for the excessive length and expense of his productions Gance's first sound film La Fin du Monde 1930 was a critical and financial disaster so great that it nearly destroyed his career But what went wrong Gance claimed it was

commercial sabotage whilst critics blamed the director s inexperience with new technology Neither excuse is satisfactory Based on extensive archival research this book re investigates the cultural background and aesthetic consequences of Gance s transition from silent filmmaking to sound cinema La Fin du Monde is revealed to be only one element of an extraordinary cultural project to transform cinema into a universal religion and propagate its power through the League of Nations From unfinished films to unrealized social revolutions the reader is given a fascinating tour of Gance s lost cinematic utopia
