Jean Matthews Green, 2001 Women writers have made significant contributions to Quebec's ongoing process of cultural self definition. Because the novel has traditionally played a central role in the construction of national identity, Quebec literary history has seen the continued production of identity narratives which Jacques Godbout calls the national text. Using the tools of contemporary feminist criticism and building on a tradition of work on Quebec women's writing, Mary Jean Green considers issues of national and cultural self definition situating the literary texts of Quebec women within a unique political and historical context while also relating them to the work of women writing in other cultural situations from nineteenth century Europe to the postcolonial francophone world.

French Seventeenth-century Literature Bernard Bourque, Jane Southwood, 2009 This volume of essays explores influences from Antiquity onwards that shaped the literary and cultural output of the French seventeenth century and the developments to which this period, the so called classical period, gave rise in later centuries. The thirteen essays in English and French cover three major areas: the continuation in French seventeenth century literature and cultural events of themes found in previous centuries; internal changes within the body of writings by French seventeenth century playwrights; the influence of seventeenth century French writers on later centuries. The collection celebrates the life and scholarly achievements of the eminent dix-septième Christopher J. Gossip, Emeritus Professor of French, University of New England, Australia.

Teaching Culture in Introductory Foreign Language Textbooks Carol A. Chapelle, 2016-07-30 This book demonstrates how foreign language textbook analysis can inform future materials development to improve foreign language teaching. Through chronological analysis of French textbooks in the United States, this book explores the representations of Canada and Quebec in French beginner textbooks produced from 1960 to 2010. Chapelle couples a large collection of 65 textbooks with a social semiotic qualitative analysis of the genres, language and images that communicate Quebec's cultural narrative to learners. Findings about the amount and type of content are presented by decade to track the trends in foreign language teaching and changes in Quebec's representation. Particular attention is given to how language politics is presented to students through text and images. This book will be of interest to scholars of Canadian Studies, Quebec Studies and Second Language Acquisition as well as foreign language materials developers.

Landscapes and Landmarks of Canada Maeve Conrick, Munroe Eagles, Jane Koustas, Caitríona Ní Chasaide, 2017-03-28 The image of the land is an ongoing trope in conceptions of Canada from the national anthem and the flag to the symbols on coins the land and nature remain linked to the Canadian sense of belonging and to the image of the nation abroad Linguistic landscapes reflect the multi faceted identities and cultural richness of the nations Earlier portrayals of the land focused on unspoiled landscape depicted in the paintings of the Group of Seven for example Contemporary notions of identity belonging and citizenship are established contested and legitimized within sites and institutions of public culture heritage and representation that reflect integration with the land transforming landscape into landmarks The Highway of Heroes originating at Canadian Forces Base

Trenton in Ontario and Grosse Ile and the Irish Memorial National Historic Site in Quebec are examples of landmarks that transform landscape into a built environment that endeavours to respect the land while using it as a site to commemorate celebrate and promote Canadian identity Similarly in literature and the arts the creation of the built environment and the interaction among those who share it is a recurrent theme This collection includes essays by Canadian and international scholars whose engagement with the theme stems from their disciplinary perspectives as well as from their personal and professional experience rooted at least partially in their own sense of national identity and in their relationship to Canada
