The Social after Gabriel Tarde Matei Candea,2015-12-14 Gabriel Tarde was a highly influential figure in 19th century French sociology a prolific and evocative writer whose understanding of the social differed radically from that of his younger opponent Emile Durkheim Whereas Durkheimian sociology went on to become the core of the social scientific canon throughout much of the 20th century Tarde s sociology fell out of the picture and he was remembered mostly through a few footnotes in which Durkheim dismissed him as an individualist a psychologist

and a metaphysician The social sciences and humanities are now being swept by a Tardean revival a rediscovery and reappraisal of the work of this truly unique thinker for whom every thing is a society and every science a sociology Tarde is being brought forward as the misrecognised forerunner of a post Durkheimian era Reclaimed from a century of near oblivion his sociology has been linked to Foucaultian microphysics of power to Deleuze s philosophy of difference and most recently to the spectrum of approaches related to Actor Network Theory In this connection Bruno Latour hailed Tarde s sociology as an alternative beginning for an alternative social science This volume asks what such an alternative social science might look like This second edition has been expanded to include alongside the original chapters two key essays by Gabriel Tarde himself *Monadology and Sociology* and *The Two Elements of Sociology* as well as a significantly revised and extended introduction by the editor
