design of which was based on an ancient Asian technique to activate and enhance clairvoyance and lucidity As a result of the numerous experimental sessions undertaken Swann s clairvoyance increased tremendously Various states of lucid consciousness were achieved with respect to seeing vivid details of invisible energetic fields and phenomena of the biological body and its astonishing higher energy systems In PSYCHIC SEXUALITY Swann reports on the high energy systems associated with sexual energies that most people sense feel and respond to at very basic levels of consciousness even if they cannot perceive them by clairvoyance Swann enlarges the book by providing an historical overview of several past epochs of higher consciousness research during which sexual energies were vividly encountered but which research was vigorously condemned by organized societal forces The existence of the societal suppression is itself suppressed If it was not for the shocking methods utilized to achieve it the suppression is quite hilarious Why such research has undergone societal suppression provides an interesting question As part of an answer Swann provides a step by step rationale that has very surprising implications
